Modern French Philosophy:

Modern French Philosophy Vincent Descombes,1980 A critical introduction to modern French philosophy from one of the liveliest contemporary practitioners *Modern French Philosophy* John Alexander Gunn,1977 **Judgement and Sense in Modern French Philosophy** Henry Somers-Hall,2022-06-23 Develops new readings of key figures in the French tradition that together constitute a new reading of the tradition itself **Modern French Philosophy** Robert Wicks,2013-10-01 This is a thorough and balanced guide to modern French philosophical thought providing lucid authoritative accounts of famous philosophers whilst also highlighting lesser known figures Author Robert Wicks introduces the major works of each philosopher explaining their impact on their peers and on the wider world Covering such major movements as Existentialism Surrealism Structuralism and Postmodernism this handbook is a useful resource for Francophiles students of philosophy and all those interested in the intellectual landscape of 20th and 21st century France The book includes detailed coverage of such philosophers as Henri Bergson Beauvoir Sarte Camus Barthes Derrida Foucault Deleuze and Levi Strauss among others Modern French Philosophy John Alexander Gunn,1922 *The Oxford Handbook of Modern French Philosophy* ,2024-06-25 French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century Modern French Philosophy Alexander J. Gunn,2006-07-01 Encyclopedia of Modern French Thought Christopher John Murray,2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more *Modern French Philosophy* Alexander Gunn,2007-10-01 *Modern French Philosophy* John A. W. Gunn,1980 **Contemporary French Philosophy** Caroline Williams,2001-11-01 French philosophy and cultural theory continue to hold a prestigious and influential position in European thought One of the

central themes of contemporary French philosophy is its concern with the theoretical and political status of the subject a question which has been broached by structuralists and poststructuralists through an analysis of the construction of the subject in and by language discourse power and ideology Contemporary French Philosophy outlines the construction of the subject in modern philosophy focusing in particular on the seminal work of Althusser Lacan Derrida and Foucault The book interrogates some of the most influential perspectives on the question of the subject to contest those postmodern voices which announce its disappearance or death It argues instead that the question of the subject persists even in those perspectives which seek to abandon it altogether Providing a broad introduction to the field and an original analysis of some of the most influential theorists of the 20th Century the book will be of great interest to political and literary theorists cultural historians as well as to philosophers
