Modern Ideas Of Evolution:

Modern Ideas of Evolution as Related to Revelation and Science Sir John William Dawson, 1906 **Modern Ideas of Evolution** J William Dawson, 2025-05-22 *Modern Ideas of Evolution* examines the development of evolutionary theory in the late 19th century. Authored by J William Dawson, this volume offers a critical perspective on Darwinism and natural selection. It provides valuable insights into the scientific debates of the time and the diverse interpretations of evolutionary processes. Dawson's work serves as a historical document capturing the nuances of scientific thought during a pivotal era in the history of science. Readers interested in the history of evolutionary biology will find this book to be a rich resource. It showcases the complexities of early evolutionary thought and its impact on modern scientific understanding. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps, as most of these works have been housed in our most important libraries around the world, and other notations in the work. In *Modern Ideas of Evolution as Related to Revelation and Science*, first published in 1890, Dawson maintains that it is religion alone that forms a stable base for all new ideas. He dismisses the theory of evolution as a crude and heretical hypothesis inconsistent with religion and undeserving of acceptance. If adopted as proven truth, he argues, it would lead to unscientific and unspiritual degeneration of the mind. More than a century later, evolution is generally accepted but still not proven, and the debates continue. Dawson's energetic polemic remains a key document for historians of science concerned with the Victorian reception of Darwinism and the rise of evolutionary theory. [Modern Ideas of Evolution as Related to Revelation and Science \(1890\)](#) John William Dawson, 2008-06-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia, and flawed pages.
