Modern Iran:

Modern Iran Ali Ansari, 2014-07-22 Today's Iran is rarely out of the headlines. Labelled by George W. Bush as a part of his axis of evil and perceived as a real nuclear threat by some, Iran is increasingly seen as an enemy of the West. And yet for many, Iran remains shrouded in mystery and incomprehensible to Western analysis. *Modern Iran* offers a comprehensive analysis and explanation of political, social and economic developments in Iran during the 20th century. Since it first published in 2003, *Modern Iran* has become a staple for students and lecturers wishing to gain a clear understanding of the history of this strategically important Middle Eastern country. The new edition will bring us up to date and will include an analysis of the successes and failures of the Khatami Presidency, an examination of the effect of 9/11, the rise of the Reform Movement and the efforts to promote Islamic Democracy, the resistance to democratisation among the hardline elites. [The Making of Modern Iran](#) Stephanie Cronin, 2003-12-16 The articles in this volume collectively present a picture of Iran under Riza Shah in all its complexity, in darker as well as lighter shades, highlighting the era's debt to the past as well as its legacy to the future. *Towards a Modern Iran* Elie Kedourie, Sylvia G. Haim, 2013-12-19 First Published in 1980, the events which took place in Iran during the time of original publication took the world by surprise. A little reflection, however, will suggest that they were not inexplicable prodigies. They constitute rather a manifestation, albeit sudden and astonishing, of a social, intellectual and political crisis in the throes of which Iran has found itself. The eleven studies included in this book are devoted to the examination of one or other aspect of this crisis and aim to clarify the origins and character of the crisis.

Modern Iran Nikki R. Keddie, Yann Richard, 2006 Presents the historical and ideological context of recent events in Iran.

Modern Iran since 1797 Ali Ansari, 2019-03-26 *Modern Iran since 1797* offers a comprehensive analysis of political, social and economic developments in Iran since the end of the eighteenth century. Spanning two centuries, the book provides historical context for Iran's international relationships and its internal struggle to reconcile itself and its traditions with the modern world. The book presents an overview of this crucial period in Iran's history: its emergence from the political turmoil of the eighteenth century through to its initial encounter with the industrial powers of Europe and its attempts to navigate the turbulent waters of European imperialism. It assesses the impact of European ideas on the triumph and tragedy of the Constitutional Revolution, which established the political template for the country going forward and against which all other political developments have been measured. This new edition has been updated to incorporate new scholarship and research to make a rounded assessment of recent developments and bring the text fully up to date. A substantive new prequel has also been added, covering the long nineteenth century from 1797 through to 1921, including a fuller and more detailed treatment both of the Constitutional Revolution and the events and ideology that underpinned it. Written in a clear, engaging style and highlighting Iran as a state and society grappling with the realities of the modern age, *Modern Iran since 1797* remains the perfect guide for all those studying the history of modern Iran. **Modern Iran Since 1921** Ali M. Ansari, 2003 This is

fundamentally a book about change and the politics of managing that change as successive governments and political elites sought and continue to seek to navigate a stable and sustainable route from a perception of tradition to a particular conception of modernity introduced

Modern Iran in Perspective Ali Pirzadeh, 2019-09-05 This book highlights fundamental but often neglected issues important for a better understanding of present-day Iran. It underlines the idea that the most effective means for a nation to meet challenges and practices of the modern era lies with the fundamental values and norms that resonate with its inhabitants. This book is meant to be a companion to the author's published book *Iran Revisited: Exploring the Historical Roots of Culture, Economics, and Society* that expands upon that book's ideas without repeating its theoretical reasoning. Its goal is to offer a better understanding of the current and evolving situations in Iran. In this regard, the author tried to clarify his position through a host of suggestions, most notably the need to consider social rights as the bare minimum but extremely imperative criteria in our contemporary discourse for the betterment of our society. These rights, he argues, are the most fundamental tenets of any community that strives to succeed and flourish. In this context, the underlying discussion rests on the following claim: the most persisting problems in Iran are the outcomes of the gradual regression of the people's mindset that persistently overlooked their heritage and value system in favor of imitating ideas that were neither compatible with their culture and history nor applicable to the country's socioeconomic conditions. The author therefore presumed that these predicaments are self-inflicted; they were neither caused by a specific state nor belong to a historical period or individual's; they cannot be characterized by political or economic terminologies but are firmly rooted in people's inability to recognize that the most vital principle in developing and propelling a nation forward is the existence of a unified people.

Modern Iran L. P. Elwell-Sutton, 2011-02-28 First published in 1985, this is a comprehensive study of the Middle East's most strategic country set against the background of the Islamic heritage of Iran and the rise and fall of the Pahlavi dynasty. Dilip Hiro describes the various phases through which the Islamic revolution has passed, giving an incisive account of

the first Gulf War and provides an historical survey of Iran's relations with the West the Soviet bloc and other countries of the region

Modern Iran Laurence Paul Elwell-Sutton, 1941 This volume shows the progress and achievements of Iran up to the 1940s within the setting of her ancient history and her strategic position in the world today The author discusses Iran's vital position as the dividing line between the East and the West and how Iran drew from and contributed to both these cultures without losing her own individuality It is this cultural influence the author argues rather than any political strength that has enabled her to survive Much of the information is taken from sources not available in English or any other language other than Persian

The Politics of Nationalism in Modern Iran Ali M. Ansari, 2012-09-24 The first full length study of Iranian nationalism in nearly five decades this sophisticated and challenging book by the distinguished historian Ali M Ansari explores the idea of nationalism in the creation of modern Iran It does so by considering the broader developments in national ideologies that took place following the emergence of the European Enlightenment and showing how these ideas were adopted by a non European state Ansari charts a course through twentieth century Iran analysing the growth of nationalistic ideas and their impact on the state and demonstrating the connections between historiographical and political developments In so doing he shows how Iran's different regimes manipulated ideologies of nationalism and collective historical memory to suit their own ends Drawing on hitherto untapped sources the book concludes that it was the revolutionary developments and changes that occurred during the first half of the twentieth century that paved the way for later radicalisation

The Political History of Modern Iran Mehran Kamrava, 1992 This book offers a concise and comprehensive examination of Iran's political history from the establishment of the Qajar dynasty in 1785 until the present It focuses on both the historical evolution of Iranian political institutions as well as on the processes and phenomena to which these institutions have been exposed Since politics do not occur within a culturally vacuous context attention is also drawn to the dominant characteristics of Iran's political culture from tribalism and religion to the cult of personality and political demagoguery that have similarly shaped political life in Iran Such characteristics have acquired added accent under the revolutionary regime of the Islamic Republic although the revolution's gradual routinization has once again brought about a measure of political normalcy Attention is drawn to the persistence of specific political dynamics that have proven to be particularly resilient throughout Iran's recent history Throughout the reigns of the three regimes governing Iran since the eighteenth century the Qajars the Pahlavis and the Islamic Republic radically different from one another as they have been the three themes of political autocracy foreign intervention and revolution have remained
