A History of Modern Mercenary Warfare Harry McCallion, 2024-04-18 Explores the development of modern mercenary forces from the British operation in Yemen in late 1960s to today's War in Ukraine Since before the time of Alexander the Great trained soldiers have sold their expertise on battlefield around the World fighting and dying in other people's wars for money glory or the lust for violence and combat In this book Harry McCallion explores the development of modern mercenary forces from the British SAS led deniable operation in Yemen in late 1960s during which the Israelis were persuaded to arm the SAS led Yemeni tribesmen through the bush wars in Africa Britain's ill fated intervention in the war in Afghanistan right up to today's War in Ukraine Many of the modern day British mercenaries were known to the author personally including such notable figures as the legendary SAS Fijian warriors Tak Takevesia who although in his early sixties shot his way out of an ambush in Bagdad and Fred Big Fred Mrafano who devoted himself to the cause of the people of Serra Leone SAS veteran Bill Scully who received the Queen's Gallantry Medal single handedly

protected 1 300 civilians from rebel troops during the uprising in May 1997 after the Sierra Leone coup and American Vietnam veteran Major Mac Mackenzie who although badly wounded in Vietnam rose from trooper to command a Rhodesian SAS squadron and was one of the units most highly decorated soldiers Also included are more notorious figures like Costas Georgiou also known by his alias Colonel Callan who served in the 1st Battalion of the Parachute Regiment but was dishonorably discharged and sentenced to five years in prison for a post office robbery later he proclaimed himself a Colonel and led a group of psychopathic mercenaries in the Angolan War of Independence before being captured and executed by Angolan forces The book explores the roles of modern day mercenaries who's use has expanded precisely because they are mercenaries fighting for money and not love of country their deaths are not seen as a patriotic sacrifice often they go unreported and in turn helps to conceal the true tragic human cost of waging a war As one former private military contractor recently stated to Australian TV If you want to conquer in the 21st century you use mercenaries special forces things to keep war secret and nobody's better at secret wars than mercenaries

Summary of Sean McFate's The Modern Mercenary Everest Media, 2022-05-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 In 2008 I was asked to participate in a plan to stage an armed intervention in Darfur I believed Blackwater could stage a humanitarian intervention for days or even weeks and I suggested other options for Greystone that included training Darfurians or African Union peacekeepers to defend against Sudanese aggression 2 The plan was to send Blackwater to Darfur to help the Janjaweed militias stop the genocide but the risks outweighed the benefits In the future individuals and organizations might overcome such reservations and retain more aggressive PMCs to do their bidding 3 A free market for force would be closer than many think As the consumer in chief the United States wields market

power to shape private military business practices and norms As the demand for security in an insecure world increases supply will expand as emerging firms offer greater combat oriented possibilities 4 The future marketplace will be hot spots and conflict zones such as the Middle East Latin America and Africa because demand for security is high there Yet introducing an industry vested in conflict into the most conflict prone places on earth is perplexing given the possible consequences for the people who live there

Mercenaries in Asymmetric Conflicts Scott Fitzsimmons, 2013 Fitzsimmons argues that small mercenary groups must maintain a superior culture to successfully engage and defeat larger and better equipped opponents

War Dog Al J. Venter, 1904-07-20 Mercenaries have been with us since the dawn of civilization yet in the modern world they are little understood While many of today's freelance fighters provide support for larger military establishments others wage war where the great powers refuse to tread In *War Dog* Al Venter examines the latter world of mercenary fighters effecting decisions by themselves In the process he unveils a remarkable array of close quarters combat action Having personally visited every locale he describes throughout Africa and the Middle East Venter is the rare correspondent who had to carry an AK 47 in his research along with his notebook and camera To him covering mercenary actions meant accompanying the men into the thick of combat During Sierra Leone's civil war he flew in the front bubble of the government's lone Hind gunship piloted by the heroic chopper ace Nellis as it flew daily missions to blast apart rebel positions In this book the author not only describes the battles of the legendary South African mercenary company Executive Outcomes he knew the founders personally and joined them on a number of actions After stemming the tide of Jonas Savimbi's UNITA army in Angola an outfit many of the SA operators had previously trained Executive Outcomes headed north to hold back vicious rebels in West Africa This book is not only about triumph against adversity but also losses as Venter relates the death and subsequent cannibalistic fate of his American friend Bob MacKenzie in Sierra Leone Here we see the plight of thousands of civilians fleeing from homicidal jungle warriors as well as the professionalism of the mercenaries who fought back with one hand and attempted to train government troops with the other in hopes that they would someday be able to stand on their own The American public as well as its military largely sidestepped the horrific conflicts that embroiled Africa during the past two decades But as Venter informs us there were indeed small numbers of professional fighters on the ground defending civilians and attempting to conjure order from chaos In the process their heroism went unrecorded and their combat skill became known only to each other In this book we gain an intimate glimpse of this modern breed of warrior in combat Not laden with medals ribbons civic parades or even guaranteed income they have nevertheless fought some of the toughest battles in the post Cold War era They simply are and perhaps always will be War Dogs

AL J VENTER has been an international war correspondent for nearly thirty years primarily for the Jane's Information Group He has also produced documentary television films on subjects from the wars in Africa and

Afghanistan to sharkhunting off the Cape of Good Hope Among his previous works are The Iraqi War Debrief Why Saddam Hussein Was Toppled and Iran s Nuclear Option Tehran s Quest for the Atomic Bomb A native of South Africa he is currently resident in the United Kingdom

Fifth Generation Warfare Armin Krishnan,2024-03-11 This book outlines the concept of Fifth Generation Warfare 5GW and demonstrates its relevance for understanding contemporary conflicts Non kinetic modes of attack and war waged by groups or non state actors at the societal level has been termed 5GW This book discusses the theory of generational warfare and explores the key ideas of 5GW such as secrecy the manipulation of proxies the manipulation of identity and culture including disinformation and big data and the use of psychological warfare These techniques are used to achieve strategic objectives such as inducing desired behaviour and controlling human terrain without resorting to overt war or overt violence The text expands the debate on 5GW by exploring emerging technologies and how they could be used for maliciously shaping human society and even for maliciously changing the genetic makeup of a population for the purpose of unprecedented social control The work closes with comments on the possibility of a Sixth Generation of Warfare which targets technical systems to possibly collapse a society through strategic sabotage Overall the book demonstrates the relevance of 5GW for understanding contemporary conflicts from the Arab Spring to the war in Ukraine in terms of the need for dominating the human domain This book will be of interest to students of security and technology defence studies and International Relations
