

Differences between British and American English

Introduction

British and American English can be differentiated in three ways:

- Differences in language use conventions: meaning and spelling of words, grammar and punctuation differences.
- Vocabulary: There are a number of important differences, particularly in business terminology.
- Differences in the ways of using English dictated by the different cultural values of the two countries.

Our clients choose between British or American English, and we then apply the conventions of the version consistently.

Differences in language use conventions

Here are some of the key differences in language use conventions.

1. **Dates.** In British English, the standard way of writing dates is to put the day of the month as a figure, then the month (either as a figure or spelled out) and then the year. For example, 19 September 1973 or 19.09.73. The standard way of writing dates in American English is to put the month first (either as a figure or spelled out), then the day of the month, and then the year. For example, September 19th 1973 or 9/19/73. Commas are also frequently inserted after the day of the month in the USA. For example, September 19, 1973.
2. **o and ou.** In British English, the standard way of writing words that might include either the letter o or the letters ou is to use the ou form. For example, colour, humour, honour, behaviour. The standard way of writing such words in American English is to use only o. For example, color, humor, honor, behavior.
3. **Through.** In American English, the word through (or thru) can be used to mean until. For example, 'September 19th thru October 1st', would be in British English '19 September until 1 October'.
