

## **SOP for MS in Mechanical Engineering sample**

My fascination for engineering has been one of the prime driving forces of my career. I recall dismantling my toy cars at the age of three, and my new bicycle at five, much before I tried my hands on my motorcycle in my teens. The passion to excel in the field of mechanical engineering has made me organized and goal-oriented in my academics. The concept of inventing new technologies for ease and comfort keeps me going. I have found this concept deeply rooted in the evolution of mankind. People have never ceased thinking of new machines that would save their time or make their journeys comfortable. From this perspective, I decided to channel my inquisitive mind to innovate things.

Mechanical engineers have come a long way, evolving as the brain of intelligence in machines. Along with excelling in mechanical engineering, studying AI and ML would expose me to a plethora of opportunities in different verticals. The demand for mechanical engineers specializing in machine learning is currently high in India. Prioritizing the needs of the industry, I decided to pursue B. Tech in Mechanical Engineering from IIT Kharagpur. Looking forward, I wish to further leverage my professional profile in the area of my interest.
