The Schillebeeckx Reader Edward Schillebeeckx, 1986 **T&T Clark Reader in Edward Schillebeeckx** Stephan van Erp, Daniel Minch, 2023-02-23 Provides a comprehensive overview of the work of Edward Schillebeeckx through the presentation of key texts and commentary on his theology

Critical Essays on Edward Schillebeeckx's Theology Cornelius C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx's thoroughly historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

Practical Sacramental Theology Bruce T. Morrill, 2021-09-09 What motivates practice of the liturgy and sacramental rites of the church Does the worship of God begin and end within each ritual enactment or does the truth and value of sacramental celebration reside in the broader context of Christian life in church and society For more than two decades prominent Jesuit sacramental liturgical theologian Bruce Morrill has explored the promise and problems inherent in the Second Vatican Council's call to renew liturgy's basic purpose namely the glorification of God and the sanctification of people Morrill's fundamental argument is that this ancient Christian principle is of a piece that divine glory and human holiness are so to speak two sides of a single coin The value of liturgy and sacraments is depleted if not lost unless they function within a holistic practice of faith that seeks the upbuilding of ethical lives personal and social With numerous real life examples plus references to current sociological studies the chapters address both modern challenges to and biblical and traditional resources for the celebration of sacramental rites today

Between the 'Mysticism of Politics' and the 'Politics of Mysticism' David Ranson, 2013-08-31 Between the Politics of Mysticism and the Mysticism of Politics traces the dialectic of the mystical and the political from both a theological and an historical perspective It presents the dialectic as a hermeneutic for the rise of the new ecclesial communities within the Roman Catholic Tradition and suggests it as the framework by which a trajectory for Christian holiness might emerge in the 21st century

Heythrop Journal, 2003 A select book list appears quarterly

Jesus, the Christ Brennan Hill, 1991 Comprehensive and up to date research combined with

the author's great gift of communication makes this a particularly popular text for introducing the historical Jesus to college students and adults. Current issues are treated with clarity and candor. Missing God? John K. Downey, Jürgen Manemann, Steven T. Ostovich, 2006. Domination, objectification, and control seem to be emerging as the virtues of our time. Yet they also seem to misfire in frustration, violence, and resignation. The human voice has shrunk to a whisper, drowned out in the cacophony of consumerism, competition, egoism, and fear. Are we missing God? Both the question and its answers are ambiguous. God may be missed in different ways. Missing God may be a matter of our missing the signs of God's presence in the world. Talk about God and theology have been marginalized as relics of the past. Missing God may refer to our often hidden and sometimes misdirected longing for God. The new political theology derived from the work of Johann Baptist Metz offers a response to our missing God. It does this as an anamnestic and eschatological resistance to forgetting, grounded in a memoria passionis, responding to others suffering. Metz's model of critical understanding sublates the modern variations on the dichotomy of reason and faith and provides an antidote to our cultural amnesia in the mystical-political double structure of faith. A political theology takes its shape only when it engages the issues of the times. The essays in this volume are by political theologians and others influenced by Johann Baptist Metz. They sharpen the questions and imperatives which mark political theology today. In addition, this collection testifies to the dynamic continuity of political theology in its German roots and North American developments.

Schillebeeckx: A Guide for the Perplexed Stephan van Erp, 2026-01-08. Edward Schillebeeckx, 1914-2009, is a key figure in modern theology. As one of the editors of *Concilium* with Karl Rahner, he was the advisor of the Dutch bishops at the Second Vatican Council and has been said to have influenced much of the content of the Council's documents. As a theologian, even when his orthodoxy was called into question before the Magisterium, he always sought to balance between tradition and renewal. This introduction guides the reader through some of Schillebeeckx's key ideas. Stephan van Erp shows how Schillebeeckx linked history and tradition to new experiences and to the spirit of his own time and how, in doing so, Schillebeeckx innovated our understanding of Christ, faith, and the Church. While the cultural and political situation of his time played an important part in the development of his theological ideas, he managed to connect developments in science and culture with his theology and with the life of people in the Church.
