Lettieri,2010-12-20 Tactical tracking is not new and has been a recurring tactic that has been used in every major conflict and been most prevalent in most post World War II low intensity conflicts and has again been rejuvenated in the American military for employment in the Global War on Terrorism More specifically it is being used successfully in Afghanistan and Iraq to hunt down insurgents and collect valuable intelligence to penetrate isolate and eliminate insurgent cells hiding in sanctuaries or amongst the population in plain sight This book Scout Tracker Operational and Training Notes of a Special Forces Combat Tracker provides a complete primer to the skills and tactics for scouting and tracking in a counter insurgent environment This easy to understand and employ information has been gleamed from years of tracking training under the tutelage of some of the world s most renowned combat tactical trackers and operational combat tracking experience from around the globe The intent of the book is to give the warrior on today s asymmetrical battlefield one more tool in the kit bag to bring the fight to an elusive enemy and give the soldier the necessary skill set to enhance his overall survivability and combat capability
