**The Turk on the Opera Stage** Christoph Yew, 2010 Thesis M A from the year 2009 in the subject Musicology Miscellaneous grade 2 0 University of Osnabrück Musikwissenschaft language English abstract This thesis is about the presentation of the Turks in operas of the Western European nations I will have a look at which different roles were used to describe the Turks In the sense of this paper the term Turk does not restrict its perspective to the area of the modern Republic of Turkey As for example Preibisch 1908 p13 notes during the 18th century composers did not distinguish between for example Persia and Turkey Pahlen 1980 p12 even suggests that the whole Arabian community was regarded as Turkish Moreover except other Arabian countries sometimes even China and India were regarded as Turkey Whaples 1998 p4 To be precise this inaccuracy can be applied to a lot of other countries that were part of the Ottoman Empire like Egypt Algeria and so on However although some of the operas that will be discussed in this paper do not play in Turkey or contain Turkish characters but are placed in neighboring countries of the Ottoman Empire or contain characters from these countries these works will also be discussed because from the perspective of our ancestors they all display Turkish elements The definition of Turkish that will be used in this paper is therefore similar to that used by Griffel 1975 p85ff and is based on a rather dynamic concept This means when analyzing an opera concerning its Turkishness the common perspective of the time has to be kept in mind Apart from that I will analyze how the typical characters changed over the course of time keeping in mind the historical background This is achieved by comparing similar characters from different operas with each other As we will see basically the timeline can be separated in three different parts In the baroque period the Turks were generally viewable in heroic roles which fitted to the concept of the *Italian Opera in Global and Transnational Perspective* Axel Körner, Paulo M. Kühl, 2022-03-24 This volume of essays discusses the European and global expansion of Italian opera and the significance of this process for debates on opera at home in Italy Covering different parts of Europe the Americas Southeast and East Asia it investigates the impact of transnational musical exchanges on notions of national identity associated with the production and reception of Italian opera across the world As a consequence of these exchanges between composers impresarios musicians and audiences ideas of operatic Italianness Italianity constantly changed and had to be reconfigured reflecting the radically transformative experience of time and space that throughout the nineteenth century turned opera into a global aesthetic commodity The book opens with a substantial introduction discussing key concepts in cross disciplinary perspective and concludes with an epilogue relating its findings to different historiographical trends in transnational opera studies

**The Marriage between Perfume and the Lyric Stage** Mary May Robertson, 2023-09-22 But what is this scent of balmy air What this ray of light in my tomb I seem to see an angel amid a scent of roses sings Florestan in Fidelio Beethoven's only opera The role of scents smells fragrances and odours in opera has long been neglected just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day In the first book length study on the

topic Professor Mary May Robertson explores the relationship between opera perfumes and their respective protagonists in order to map out the previously undiscussed connection between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas *Opera in Perspective* John D.

**Orientalism and the Reception of Powerful Women from the Ancient World** Filippo Carlà-Uhink,Anja Wieber,2020-02-06 Why is Cleopatra a descendent of Alexander the Great a Ptolemy from a Greek Macedonian family in popular imagination an Oriental woman True she assumed some aspects of pharaonic imagery in order to rule Egypt but her Orientalism mostly derives from ancient Roman and modern stereotypes both the Orient and the idea of a woman in power are signs in the Western tradition of otherness and in this sense they can easily overlap and interchange This volume investigates how ancient women and particularly powerful women such as queens and empresses have been re imagined in Western and not only Western arts highlights how this re imagination and re visualization is more often than not the product of Orientalist stereotypes even when dealing with women who had nothing to do with Eastern regions and compares these images with examples of Eastern gaze on the same women Through the chapters in this volume readers will discover the similarities and differences in the ways in which women in power were and still are described and decried by their opponents
