From the Supernatural to the Uncanny Zoltán Biedermann,Stephen M. Hart,2018-01-23 This volume is a collection of thirteen essays built around the question what is the supernatural and how and why has it changed over time It is divided into two complementary sections the first focussing on research on the discourse of the supernatural including the miraculous located in the medieval and early modern eras and the second consisting of a set of test cases involving research on the uncanny often articulated in a post Freudian sense as expressed in modern literature film and art The eclectic and

prismatic approach pursued via a variety of test cases of the supernatural in this book gives rise to a clear comparative and diachronic study of the main characteristics of the supernatural

Reliance Motor Services David Wilder, Barrie Hedges, 2020-07-19
 Between the two world wars and in the years that followed several generations relied on country buses In the days when few could afford a car the bus was the medium to move between homes in often remote villages and the places where they increasingly went to school worked and enjoyed their leisure hours This is the story of one such chain of villages across the Berkshire Downs and the family owned business that grew up around satisfying their needs George Hedges came back from World War I to become a horse drawn carrier but with ambitions to motorise his business With his family taking the wheel in the 50s and beyond Reliance extended its reach nationwide and even internationally The small village where it all started Brightwalton woke in the mornings to the cough of diesel engines from both Reliance buses and a relative's lorries When both businesses departed the village lost many of its jobs its two pubs and very nearly its school This book is not just for bus lovers but for anyone who looks back with fondness on the era before the motor car choked free movement and changed life
