Money Hungry:

Money Hungry (Coretta Scott King Author Honor Title) Sharon Flake, 2009-11-01 The mesmerizing story of one girl's struggle to break her family's cycle of poverty is reissued with an arresting new cover. Thirteen-year-old Raspberry Hill is starved for money. She will do just about anything legal to get her hands on the almighty dollar: wash cars, sell rotten candy, skip lunch, clean houses. She is obsessed. She is driven. She is afraid. Memories of being homeless, sleeping in the streets, and eating handouts keep Raspberry's eye on the only prize that matters to her: cold, hard cash. When the green stuff greases her palm, she gets comfort from feeling its crinkly paper power. And when money is your best friend, there's more to do than hold it. Raspberry kisses her cash. She smells it. She loves it. But even money can't answer the questions that keep Raspberry awake at night: Will she and Momma ever move out of the projects? What did Ja'nae do with the two hundred bucks Raspberry loaned her? And what's really going on with Momma and that rich doctor? A haunting story of greed and forgiveness by the award-winning author of *The Skin I'm In*. This unforgettable novel will keep you glued to every page. Bank on it. Storetry Allan Williams, 2006-11-29 The Legend of Storetry continues to prevail with its ghetto gospels and real-life stories that will shock the psyche and help open the blind and ghetto souls in the world in a poetic and raunchy motion. Storetry has returned to rapture the ghettos in America to the next level. It is a down-to-earth and up-close and personal hardcore book that will expand the awareness of the ignorant if read carefully. That which makes a person laugh can also make a person cry, so never judge a book by its cover or title because miracles don't happen until you give something a try. So don't stop at this introduction because the real wisdom lies within the pages of this book and there is something different on each page, so open up and take a close look. **Intelligent Techniques for Planning** Ioannis Vlahavas, Dimitris Vrakas, 2005-01-01 The Intelligent Techniques for Planning presents a number of modern approaches to the area of automated planning. These approaches combine methods from classical planning such as the construction of graphs and the use of domain-independent heuristics with techniques from other areas of artificial intelligence. This book discusses in detail a number of state-of-the-art planning systems that utilize constraint satisfaction techniques in order to deal with time and resources, machine learning in order to utilize experience drawn from past runs, methods from knowledge systems for more expressive representation of knowledge, and ideas from other areas such as Intelligent Agents. Apart from the thorough analysis and implementation details, each chapter of the book also provides extensive background information about its subject and presents and comments on similar approaches done in the past. Born to Be Business Savvy James Timothy White, 2010-06 White's rise to success was a phenomenal rags-to-riches story until he nearly lost it all in 2007. White opens up about his upbringing, strong entrepreneurial spirit, and how he became one of the youngest self-made millionaires in the world. Money Hungry Sharon G.
