Making Sense Of Science Understanding The Social Study Of Science:

Making Sense of Science Steven Yearley, 2005 This volume demystifies science studies and bridges the divide between social theory and the sociology of science

Cultures of Environmentalism S. Yearley, 2004-11-23 As environmental issues increasingly impinge on society sociologists have turned their attention to nature and the environment However unlike the majority of sociological work on environmental issues which has too often been dominated by abstract theoretical disputes this book concentrates on empirical studies in environmental sociology It shows what sociologists can bring to current debates over environmental topics including genetic modification and using the author's first hand research demonstrates how sociologists can best pursue practical work on environmental topics

[The SAGE Encyclopedia of Qualitative Research Methods](#) Lisa M. Given, 2008-08-19 Qualitative research is designed to explore the human elements of a given topic while specific qualitative methods examine how individuals see and experience the world Qualitative approaches are typically used to explore new phenomena and to capture individuals thoughts feelings or interpretations of meaning and process Such methods are central to research conducted in education nursing sociology anthropology information studies and other disciplines in the humanities social sciences and health sciences Qualitative research projects are informed by a wide range of methodologies and theoretical frameworks The SAGE Encyclopedia of Qualitative Research Methods presents current and complete information as well as ready to use techniques facts and examples from the field of qualitative research in a very accessible style In taking an interdisciplinary approach these two volumes target a broad audience and fill a gap in

the existing reference literature for a general guide to the core concepts that inform qualitative research practices The entries cover every major facet of qualitative methods including access to research participants data coding research ethics the role of theory in qualitative research and much more all without overwhelming the informed reader Key Features Defines and explains core concepts describes the techniques involved in the implementation of qualitative methods and presents an overview of qualitative approaches to research Offers many entries that point to substantive debates among qualitative researchers regarding how concepts are labeled and the implications of such labels for how qualitative research is valued Guides readers through the complex landscape of the language of qualitative inquiry Includes contributors from various countries and disciplines that reflect a diverse spectrum of research approaches from more traditional positivist approaches through postmodern constructionist ones Presents some entries written in first person voice and others in third person voice to reflect the diversity of approaches that define qualitative work Key Themes Approaches and Methodologies Arts Based Research Ties to Computer Software Data Analysis Data Collection Data Types and Characteristics Dissemination History of Qualitative Research Participants Quantitative Research Ties to Research Ethics Rigor Textual Analysis Ties to Theoretical and Philosophical Frameworks The SAGE Encyclopedia of Qualitative Research Methods is designed to appeal to undergraduate and graduate students practitioners researchers consultants and consumers of information across the social sciences humanities and health sciences making it a welcome addition to any academic or public library New Perspectives on Risk Communication Asa Boholm,2013-12-16 That risk communication ranks high on the policymaking agenda is beyond discussion today The field is a point of intersection of social communication practical management and policy making It covers such diverse activities as to inform and educate the public about risk and risk management in order to influence attitudes and behaviour to act in situations of emergency or crises to aid in decision making and to assist in conflict resolution Communication has grown into a major concern in current risk governance based on network co ordinated management of public affairs conducted by authorities and companies and is recognized as a key component in the government of risk This is especially salient in policy fields relating to environmental planning and resource management urban planning chemical and food regulation or infrastructure planning development and maintenance This book explores risk communication research with a focus on new theoretical perspectives research findings and applied goals It reflects on a broad range of innovative theoretical perspectives methodological approaches and empirical areas This book was published as a special issue of the Journal of Risk Research *The SAGE Handbook of Digital Society* William Housley,Adam Edwards,Roser Beneito-Montagut,Richard Fitzgerald,2022-11-23 This SAGE Handbook brings together cutting edge social scientific research and theoretical insight into the emerging contours of digital society Chapters explore the relationship between digitisation social organisation and social transformation at both the macro and micro level making this a valuable resource for postgraduate students and academics conducting research across the social sciences The topics covered are

impressively far ranging and timely including machine learning social media surveillance misinformation digital labour and beyond This innovative Handbook perfectly captures the state of the art of a field which is rapidly gaining cross disciplinary interest and global importance and establishes a thematic framework for future teaching and research Part 1 Theorising Digital Societies Part 2 Researching Digital Societies Part 3 Sociotechnical Systems and Disruptive Technologies in Action Part 4 Digital Society and New Social Dilemmas Part 5 Governance and Regulation Part 6 Digital Futures *Social Research Methods* Kristin Kenneavy, Catherine E. Harnois, Maxine P. Atkinson, Kathleen Odell Korgen, 2022-03-22 Featuring a unique pedagogical framework Social Research Methods Sociology in Action provides all the elements required to create an active learning experience for this course Modeled after the other volumes in SAGE's Sociology in Action series this innovative new text combines hands on work application and learning by example It features a diverse group of expert contributing authors who also practice active learning in their own classrooms Each chapter discusses one aspect of conducting quantitative or qualitative research and pairs that foundational coverage with carefully developed learning activities and thought provoking questions that prompt students to practice and apply their new research skills The comprehensive Activity Guide that accompanies the text will help you carry out and assess the activities that best engage your students fit the mode of instruction you choose and meet your course goals In the spirit of the Sociology in Action theme the text concludes with two unique chapters on how social researchers interact with their surrounding communities and help bring about social change and social justice This title is accompanied by a complete teaching and learning package Making Meteorology Mikaela Sundberg, 2005 This thesis is about the production of knowledge in meteorological research Meteorology is an interesting case because of its crucial role in defining the climate change problem but also because of its reliance on simulation modeling a comparatively little studied scientific practice The thesis provides an analysis of the central practices of simulation modeling and field experimentation It draws upon concepts from social world theory where practice is closely related to work The thesis also employs the notion of translation as developed by the actor network approach in order to analyse how different practices and entities become associated with each other Empirical data was collected with interviews and participant observation and most of the fieldwork was conducted at the Department of Meteorology Stockholm University *Theories, Methods, Practices, and Fields of Digital Social Research* Gabriella Punziano, Felice Addeo, Angela Delli Paoli, 2024-07-08 The digital in the form of technologies scenarios objects processes and relational and interactional structures is increasingly becoming central to understanding culture society human experience and the social world It permeates our society's practices symbols and shared meanings and it makes old distinctions such as the one between online and offline real and virtual and material and immaterial obsolete It also introduces digitally native objects of research such as cyber bullying and digital identities which have a direct impact on mainstream sociological problems Constructing Social Research Charles C. Ragin, Lisa M. Amoroso, 2018-03-30 The updated Third Edition of this innovative text shows the unity

within the diversity of activities called social research to help students understand how all social researchers construct representations of social life using theories systematic data collection and careful examination of that data The book tackles questions like What is social research How does it differ from journalism documentary film making or laboratory research in the natural sciences and What is the researcher's obligation to those he or she is studying Updated throughout with new references and examples this edition is designed to evoke challenging questions regarding the nature of representation and the ethical challenges facing social scientific researchers The text moves beyond standard research challenges to push readers to see the complex relationships among ethics ideas evidence and outcomes

Health and Social Research in Multiethnic Societies James Y. Nazroo, 2006-09-27 This volume presents a ready source of information on the methodological issues facing research on ethnicity which is highly relevant to a wide variety of health economic and social issues in modern societies Straightforward in its approach and accessible to those who are not specialists in studies of ethnicity *Health and Social Research in Multiethnic Societies* provides essential and clear guidance on appropriate methods Topics covered include approaches to conceptualizing ethnicity and understanding the context of ethnicity in modern societies ethical issues and the political context within which ethnicity research is conducted engagement with researched communities and with users more broadly cultural competence in research practical issues faced by both qualitative and quantitative research use of secondary and administrative data sources for research Using a combination of critical analysis and case studies to illustrate the benefits and pitfalls of particular approaches this volume provides access to core issues relevant to research with ethnic minority groups It is a vital resource for those carrying out and using what is a considerable body of research including students academics researchers and research commissioners

Essentials of Social Research Linda Kalof, Amy Dan, Thomas Dietz, 2008-10 This core text on social sciences research covers an extensive amount of material with ongoing exercises of increasing difficulty coverage of both quantitative and qualitative research methods the limitations and ambiguity of research findings and explanations on how to interpret published research

Philosophy & Methodology of the Social Sciences: Understanding social scientific practice Mark J. Smith, 2005 Covers the traditional literature on the philosophy of the social sciences and the contemporary philosophical and methodological debates developing at the heart of the disciplinary and interdisciplinary groups in the social sciences It addresses the needs of researchers and academics who are grappling with the relationship between questions of knowledge construction and the problems of social scientific method
