Making Strategy An Introduction To National Security Processes And Problems:

Making Strategy - an Introduction to National Security Processes and Problems D.M. Snow, D.M. Drew, 1988-08-08 National security strategy is a vast subject involving a daunting array of interrelated subelements woven in intricate sometimes vague and ever changing patterns Its processes are often irregular and confusing and are always based on difficult decisions laden with serious risks In short it is at the same time a subject of overwhelming importance to the fate of the United States and civilization itself The authors have done a considerable service by drawing together many of the diverse threads of national security into a coherent whole They consider political and military strategy elements as part of a larger decision making process influenced by economic technological cultural and historical factors Air University Press United States Air Force

Making Twenty-First-Century Strategy Dennis M. Drew, Donald M. Snow, 2010-05 This new work defines national security strategy its objectives the problems it confronts and the influences that constrain and facilitate its development and implementation in a post Cold War post 9 11 environment The authors note that making and implementing national strategy centers on risk management and present a model for assessing strategic risks and the process for allocating limited resources to reduce them The major threats facing the United States now come from its unique status as the sole remaining superpower against which no nation state or other entity can hope to compete through conventional means The alternative is what is now called asymmetrical or fourth generation warfare Drew and Snow discuss all these factors in detail and bring them together by examining the continuing problems of making strategy in a changed and changing world Originally published in 2006

Making Strategy Donald M. Snow, Dennis M. Drew, 2004-11 This book addresses national security strategy what it is what its objectives are what problems it seeks to solve or at least manage and what kinds of influences constrain and create opportunities for developing and implementing strategies The authors who have spent years teaching the subject at the war colleges explain the process simply concisely and thoroughly They pay special attention to the threats interests and risks associated with terrorism and other forms of asymmetrical warfare that are the hallmark of the modern era
