Excerpt from *Old Age Deferred* The Causes of Old Age and Its Postponement by Hygienic and Therapeutic Measures  
Whoever takes up this book with the idea that the aged can be transformed into sprightly adolescents will be disappointed A work based entirely on evidence of a scientific nature as is the present volume cannot have such an end in view since it is altogether unattainable at least with what knowledge is now available But while it is still impossible for us to create a young man out of an old one it is quite Within the bounds of possibility as we shall endeavor to demonstrate herein to prolong our term of youthfulness by ten or twenty years In other words we need no longer grow old at forty or fifty we may live to the age of ninety or one hundred years instead of dying at sixty or seventy All this can be brought about by the observance of certain hygienic measures and by improving the functions of a certain few of the glandular structures in our body provided incurable organic disorders have not already too gravely compromised one or more of our main organs About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
