Pupil Services Dean L. Hummel, Charles W. Humes, 1984 *Organization and Administration of Pupil Personnel Service Programs in Selected School Systems* Gene Carl Fusco, 1961 *Implementing Effective School-wide Student Discipline and Behavior Management Systems*: Dr. Howie Knoff, 2009-02-02 Today's school wide Positive Behavioral Support approaches are more specific integrated effective and comprehensive than ever before This Electronic Book E Book describes the components and specific elements of Project ACHIEVE's evidence based Positive Behavioral Self Management System PBSS that addresses the prevention intervention and intensive needs of challenging students and is fully consistent with NCLB and IDEA Project ACHIEVE is a national award winning school improvement program that has been designated as an evidence based through two federal agencies for example the Department of Health teaching teachers the instructional self management skills that they need to run positive effective classrooms that consistently hold students accountable for their behavior and that result in student learning and behavioral growth and teaching school staff organizational self management skills so that they develop the systemic approaches needed for identifying resources and building capacity to independently sustain successful building wide services for the prevention strategic intervention and intensive support needs of all students The six critical components that make up the PBSS then are presented in detail a the Stop b the development of grade level and building wide accountability systems c how to increase staff and student consistency d the analysis of 'special situations' behavioral situations that occur in the common areas of a school and or that involve peer mediated teasing taunting bullying harassment and physical aggression e crisis prevention intervention and response and f the importance of home and community outreach Finally the E Book focuses specifically 'Special Situations' and 'Special Situation Analyses' There are two types of 'Special Situations' Setting specific and Student or Peer specific The Setting specific Special Situations involve the common or 'public' areas of a school the hallways bathrooms cafeteria playground media center library buses and other school gathering places The Student or Peer specific Special Situations involve the continuum from teasing to taunting to bullying to harassment to physical aggression or fighting Clearly these 'setting' and 'student' situations are critical to a PBSS as they can positively contribute to a school's positive climate or they can negatively interfere with the classroom climate making it more difficult for students to be completely engaged and focused on academic achievement In order to develop strategic interventions for these negative special situations this E Book describes how to conduct a 'Special Situations Analysis' a systematic data based problem solving process that links Problem Identification to Functional Assessment Problem Analysis to Intervention and to Formative and Summative Evaluations The Functional Assessment Problem Analysis domains discussed will include a Student Characteristics Issues and Factors b Teacher Staff Characteristics Issues and Factors c Environmental

Characteristics Issues and Factors Physical Plant and Logistics d Incentives and Consequences and e Resources For Student specific Special Situations the Peer Group is added to the analysis In the end this E Book describes a functional effective and comprehensive school wide system that maximizes students%u2019 academic achievement creates safe school environments and positive school climates increases and sustains effective classroom instruction and parent involvement and collects data to demonstrate student and building outcomes This E Book describes the necessary components of a PBSS and provides an in depth and practical step by step approach to the Special Situation Analysis demonstrating its explicit link with the strategic interventions that help schools to decrease or eliminate these issues%u2014thus increasing their positive and productive school climates and classroom settings *The Delivery of Psychological Services in Schools* Stephen N. Elliott, Joseph C. Witt, 2017-09-13 Originally published in 1986 the volume is organized into three parts Basic Issues Models and Settings and Evaluation and Development The Editors begin with a description of the major conceptual dimensions and the fundamental questions that affect the practice of school psychology Part 2 focuses on psychological service delivery issues as they are affected by particular models of service delivery and the settings in which a service is provided Part 3 consists of various evaluation and development issues that influence school psychology Taken together the chapters provide a comprehensive view of major service delivery issues within school psychology In addition virtually all of the chapters offer suggestions about needed directions for the field and many identify avenues by which these new directions can be accomplished
