Lunatic Prophecy Marc McLemore, Daniel Stiles, L Culbertson, Gerald, 2003-11-01 Born half human and half yushusa a mystical race identified by bright red hair and red eyes Yui finds herself at odds with the world from birth Racism runs rampant from the ancient wars between the yushusa and humans Yui is able to hide the fact that she is half yushusa as the trademark features of red hair and red eyes only appear upon her at night During the day she looks like an ordinary human One night Yui discovers that the village she lives nearest to is burning She does not interfere knowing that her help would not be welcome Unknown to her forces are conspiring to bring her out of her self imposed hiding She soon will have to decide whether or not to rejoin society and if so whether she is serving good or evil The answer might come down to finding her home

Stories of the Babylonian Talmud Jeffrey L. Rubenstein, 2010-07-12 Jeffrey L Rubenstein continues his grand exploration of the ancient rabbinic tradition of the Talmudic sages offering deep and complex analysis of eight stories from the Babylonian Talmud to reconstruct the cultural and religious world of the Babylonian rabbinic academy Rubenstein combines a close textual and literary examination of each story with a careful comparison to earlier versions from other rabbinic compilations This unique approach provides insight not only into the meaning and content of the current forms of the stories but also into how redactors reworked those earlier versions to address contemporary moral and religious issues Rubenstein s analysis uncovers the literary methods used to compose the Talmud and sheds light on the cultural and theological perspectives of the Stammaim the anonymous editor redactors of the Babylonian Talmud Rubenstein also uses these stories as a window into understanding more broadly the culture of the late Babylonian rabbinic academy a hierarchically organized and competitive institution where sages studied the Torah Several of the stories Rubenstein studies here describe the dynamics of life in the academy master disciple relationships collegiality and rivalry and the struggle for leadership positions Others elucidate the worldview of the Stammaim including their perspectives on astrology theodicy and revelation The third installment of Rubenstein s trilogy of works on the subject Stories of the Babylonian Talmud is essential reading for all students of the Talmud and rabbinic Judaism

Whatever Is, was George A. Young, 1887 The three most commonly accepted theories which philosophers have adopted in order to solve the mysterious problem the origin of the Universe are First That it is Self made Pantheism Second That it is Self existent Atheism Third That it is Created by an external agency or Supreme Intelligence Spiritualism In our examination of these theories we have not entered the sanctuary nor discussed any religious dogmas We have taken the Mosaic account of Creation as we have the cosmogonies of

Epicurus Kant Laplace and others as their theories to account for the origin of the visible universe and endeavored to logically and philosophically analyze them in order to see which might be the most probable We have more particularly examined the foundation on which rests the philosophy of Herbert Spencer Also the theories of Charles Darwin and endeavored to see if the philosophical structures which they have built thereon can stand the test of a logical analysis We have presented to our readers a new theory for the Origin or formation of the World and Species and for this purpose have accepted the hypothesis That first before the worlds were formed there existed a chaos a mass of primordial matter termed Atoms We have not inquired into the primal cause of these but assisted by the science of molecular physics have built up the structure of our theory and endeavored to show the secondary or natural cause of the origin of all forms organic and inorganic Also of the continuing existence of all living things and species of things We may be permitted to say That this book will be best appreciated by those who have some knowledge of philosophic literature but no previous reading is necessary to the understanding of the argument or the passing of judgment upon its conclusions Preface PsycINFO Database Record c 2010 APA all rights reserved
