*I Know Where I'm Going!* Pam Cook, 2021-10-21 *I Know Where I'm Going* 1945 is widely regarded as one of Michael Powell and Emeric Pressburger's most remarkable achievements and a cinematic tour de force. A simple moral tale set in the wild Scottish Highlands, it follows the journey of a headstrong young woman forced by her encounter with this magical, mythic world and its exotic customs to revise her materialistic priorities. Pam Cook traces the film's production history, exploring its place in Powell and Pressburger's canon and showing how it wove into its narrative the memories and aspirations of an international group of film makers working in 1940s Britain. Focusing on the extensive use of special effects, she reveals a technologically ambitious masterpiece. *I Know Where I'm Going* is for Cook a multilayered work rich in allusions whose emotional power reaches beyond boundaries of time and place to touch profound human desires. In her foreword to this new edition, Cook argues that *I Know Where I'm Going*'s ability to be both of its time and timeless is what ensures that it continues to captivate successive generations of viewers.

Directing Michael Rabiger, Mick Hurbis-Cherrier, 2013 This comprehensive manual has inspired tens of thousands of readers worldwide to realize their artistic vision and produce well-constructed films. Filled with practical advice on every stage of production, this is the book you will return to throughout your career. *Directing* covers the methods, technologies, thought processes, and judgments that a director must use throughout the fascinating process of making a film. The core of the book is the human psychological and technical knowledge that every director needs: the enduring elements of the craft that remain vital. *Directing* also provides an unusually clear view of the artistic process, particularly in working with actors and principle crew to achieve personally expressive storytelling and professionalism on any budget. *Directing* explores in detailed and applicable terms how to engage with the conceptual and authorial sides of filmmaking. Its eminently practical tools and exercises show how to discover your artistic identity, develop credible and compelling stories with your cast and crew, and become a storyteller with a distinctive voice and style. The companion website includes teaching notes, dozens of practical hands-on projects, and film study activities to help you master technical and conceptual skills, film analysis questionnaires, and all the essential production forms and logs. New to the fifth edition: Virtually every chapter has been revised, updated, and reorganized for a streamlined and integrated approach. Expanded sections on the basics of drama, including thorough analyses of recent films. Discussions of the director's approach to script analysis and development. New discussion exploring the elements of naturalistic and stylistic aesthetic approaches. New discussion on the narrative power of lighting and the lens, including many recent film examples for shot size, perspective, focus, and exposure. Greater emphasis on the implications of composition, mise en scene, continuity shooting, and editing, long take shooting, point of view sequences, and camera handling. Expanded discussion of collaboration between the director and principle creative crew. Updated coverage of workflow and comparative advantages to digital or film acquisition. New section on film production safety, set protocol, and etiquette.

**Monstrous Liminality** Robert G. Beghetto, 2022-01-24 This book

examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity s denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any
