Department of Education,1991 Intended for teachers administrators members of school district governing boards and concerned others this model curriculum guide was developed to reflect the strongest possible professional consensus about the English language arts content that every student in the State of California should be exposed to before graduating from high school The guide was revised on the basis of reactions to the original 1985 publication The guide is divided into five chapters 1 Introduction 2 Establishing a Literature based Program 3 Integrating Instruction From Thought to Language to Expression 4 Integrating Instruction in Listening Speaking Reading and Writing and 5 Varying Students Language Arts Experiences MG *Literature for Science and Mathematics* DIANE Publishing Company,1998 Representing the perspectives of educators in both the science and mathematics communities this publication is intended to serve as a resource for teachers of students in kindergarten through grade 12 in choosing science and mathematics related literature for their schools and classrooms It contains over 1 000 annotated entries on the physical sciences earth sciences life sciences and mathematics Formatted for easy use each entry provides information on the author publisher and publication date type of literature subject emphasis suggested grade span and illustrations *Instructional Materials Ordering Manual* California. State Department of Education,1989 Secondary Textbook Review ,1988 This book is intended as a resource for teachers and curriculum developers who select textbooks for secondary English courses It includes a compilation of 32 factual textbook reviews obtained from the application of a review instrument which was based on the California Model Curriculum Standards Grades Nine through Twelve English Language Arts and the English Language Arts Framework for California Public Schools Kindergarten through Grade Twelve The instrument described in the book was applied to selected English composition grammar and reading literature textbooks The book suggests that the resulting reviews can be used by teachers as a screening device to reduce the number of books they review and pilot studies they conduct thus educators will have more time to do in depth reviews of two or three textbooks which appear to match their course requirements and their students academic needs The book also states that the review instrument can be adapted by districts to reflect their own English objectives and test results Every review in the book includes two parts and a publisher s description which appears in the Appendix a section which depicts the extent to which the emphasis on content and process is given to each of the topics in the textbooks reviewed and a section which includes topics on content and processes which might be found only in teachers editions The book does not make assessments regarding the quality of the books reviewed but rather provides information

which teachers may find useful in making quality judgments and selecting specific textbooks for English programs SR
