in Egyptian Archaeology Denys A. Stocks,2022-07-26 In this new edition of Experiments in Egyptian Archaeology Denys A  
Stocks introduces further experimental research on stoneworking in Ancient Egypt through archaeological and pictorial  
evidence A further 20 years of research has been added to the original publication and the book now includes the results of  
experiments that test and evaluate over 250 reconstructed and replica tools bringing alive the methods and practices of  
Ancient Egyptian craftworking This practical approach to understanding the fundamentals of Ancient Egyptian stoneworking  
highlights the evolution of tools and techniques and how these come together to produce the wonders of Egyptian art and  
architecture A new chapter on Predynastic industrial transitions and convergence explores how the surge in technology  
particularly in the expanding production of stone vessels and in the production of faience artifacts drove the expansion of the  
economy of the Late Predynastic period in Egypt Introducing the results of new research to enrich our understanding of the  
fundamental development of stoneworking and other supporting technologies in Ancient Egypt this book remains an  
important volume for students and researchers wishing to understand Ancient Egyptian technology and development
