## Lorfeo Score:

*L'Orfeo. Piano-vocal score* Claudio Monteverdi, **L'orfeo** Claudio Monteverdi,1923 The Musical Dialogue Nikolaus Harnoncourt,1997 Amadeus This collection of lectures talks and essays focuses on three major composers of the 17th and 18th centuries **Printed Opera Scores in American Libraries** ,1998 **Opera's First Master** Mark Ringer,2006-02 Includes full length Harmonia Mundi CD Cover p 1 *Studies in Music, Words, and Imagery in Early Modern Europe* Barbara Russano Hanning,2024-08-20 Characterized by an interdisciplinary approach these essays highlight the relationship between music and poetry in Italian secular works of the late sixteenth and early seventeenth centuries examine the role of images in shedding light on the cultural context in which these and other works came into being music iconography and explore the binaries and similarities of the arts in this period Insights about early opera are complemented by discussions of accompanied solo song or monody both genres new to Italian music at the turn of the seventeenth century Many chapters focus on specific images ranging from the figure of Apollo and his significance as the earliest operatic protagonist to an early eighteenth century representation of a salon concert and its ensemblisation of events that likely occurred serially Others include discussions and analyses of musical poetics from Tasso s influence on the Italian madrigal to Rinuccini s authorship of the earliest opera libretti Another focuses on history while narrating the circumstances under which opera came into being in late Renaissance Florence Addressed in large measure to teachers and students *Studies in Music Words and Imagery in Early Modern Europe* presents a range of subjects that broaden our perspective on the era Certain essays take a specifically pedagogical approach while others are more apt to interest music historians or those familiar with Italian versification All are presented with a view toward making more accessible essays that do not fit neatly into one subject area but cross boundary lines between music words and images *Catalogue of the educational division of the South Kensington museum* Victoria and Albert museum,1876 **The National Union Catalog, Pre-1956 Imprints** ,1968 **Library of Congress Catalog** Library of Congress,1973 A cumulative list of works represented by Library of Congress printed cards *Pasticcio opera in Britain* Peter Morgan Barnes,2024-07-09 This study overturns twentieth century thinking about pasticcio opera This radical way of creating opera formed a counterweight even a relief to the trenchant masculinity of literate culture in the seventeenth century It undermined the narrowing of nationalism in the eighteenth century and was an act of gross sacrilege against the cult of Romantic genius in the nineteenth century In the twentieth century it found itself on the wrong side of copyright law However in the twenty first century it is enjoying a tentative revival This book redefines pasticcio as a method rather than a genre of opera and aligns it with other art forms which also created their works from pre existing parts including sculpture A pasticcio opera is created from pre existing music and text thus flying in face of insistence on originality and creation by a solo genius *Reimagine to Revitalise* Charulatha Mani,2021-08-19 How can the classical Karnatik music of South India illuminate performers and researchers understanding of the art music of seventeenth century Italy and specifically

Monteverdi's operas Both art forms attach great value to the skill of vocal ornamentation and by exploring the singer's practice moving between them this Element reveals how intercultural approaches can enable the reconsideration of the history of Western music from a global perspective Using methods from historical and comparative musicology theory and practice based research Charulatha Mani analyses vocal ornamentation and technique and arrives at an innovative approach to studying musics from the past Musical practice the author argues is an enactment of hybridity and the artistic product of plurality Specifically in early modern Europe the fluid movement of musicians from the East paved the way to a plurality of musical cultures This finding holds deep implications for diversity in and decolonisation of current music performance and education

**Grove's Dictionary of Music and Musicians** George Grove, John Alexander Fuller-Maitland, Waldo Selden Pratt, Charles Newell Boyd, 1907 **Schirmer Scores** Joscelyn Godwin, 1975 **National Union Catalog**, 1983 *The Chesterian* Georges Jean-Aubry, 1921 Claudio Monteverdi's Venetian Operas Ellen Rosand, Stefano La Via, 2022-07-01

Claudio Monteverdi's Venetian Operas features chapters by a group of scholars and performers of varied backgrounds and specialties who confront the various questions raised by Monteverdi's late operas from an interdisciplinary perspective The premise of the volume is the idea that constructive dialogue between musicologists and musicians stage directors and theater historians as well as philologists and literary critics can shed new light on Monteverdi's two Venetian operas and their respective librettos by Badoaro and Busenello not only at the levels of textual criticism historical exegesis and dramaturgy but also with regard to concrete choices of performance staging and mise en scene Following an Introduction setting up the interdisciplinary agenda the volume comprises two main parts Contexts and Sources deals with the historical philosophical and aesthetic contexts of the works librettos and scores Performance and Interpretation offers critical and historical insights regarding the casting singing reciting staging and conducting of the two operas This volume will appeal to scholars and researchers in Opera Studies and Music History as well as be of interest to early music performers and all those involved with presenting opera on stage
