Lost Leviathan Francis Downes Ommanney,1971 **Lost Leviathan** Francis Downes Ommanney,1971 **Leviathans of Jupiter** Ben Bova,2011-02-01 In Ben Bova's novel JUPITER physicist Grant Archer led an expedition into Jupiter's hostile planetwide ocean attempting to study the unusual and massive creatures that call the planet their home Unprepared for the hostile environment and crushing pressures Grant's team faced certain death as their ship malfunctioned and slowly sank to the planet's depths However one of Jupiter's native creatures a city sized leviathan saved the doomed ship This creature's act convinced Grant that the huge creatures were intelligent but he lacked scientific proof Now several years later Grant prepares a new expedition to prove once and for all that the huge creatures are intelligent The new team faces dangers from both the hostile environment and from humans who will do anything to make sure the mission is a failure even if it means murdering the entire crew One of Library Journal's Best SF Fantasy Books of 2011 **The Making of International Environmental Treaties** Gerry Nagtzaam,2009 Gerry Nagtzaam contends that in recent decades neoliberal institutionalist scholarship on global environmental regimes has burgeoned as has constructivist scholarship on the key role played by norms in international politics In this innovative volume the author sets these interest and norm based approaches against each other in order to test their ability to illustrate why and how different environmental norms take hold in some regimes and not others The book explores why some global environmental treaties seek to preserve and protect some parts of nature from human utilization some seek to conserve certain parts of nature for human development whilst others allow the reckless exploitation of nature without accounting for the consequences It tracks the fate of these three underlying environmental norms preservation conservation and exploitation using case studies on whaling mining in Antarctica and tropical timber The book illustrates how international political battles to shape environmental regimes inevitably result in clashes between these competing environmental norms This unique study will prove a fascinating read for both academics and practitioners in the fields of international environmental politics and international environmental law Leviathan's Glass Deborah Barnett,2010-03-02 The equal armed cross is a symbol as old as mankind predating the modern cross by millennia It represents the crossing point between body and spirit For the true adept there is another crossing line which bisects the two The true light of gnosis is represented by this line At this point reality and dreams blend and sit not altogether comfortably together What seems mundane what could be ordinary can be transformed into the truly magical at the point of crossing The Abyss between the Great Sea and the place wherein true wisdom dwells The experience differs for every adept and this book is not intended to be a definitive work on crossing The Abyss Rather it is designed to open up those centres receptive to the primeval forces which of necessity need to be released tamed and then banished Love is the law love under will Where the three forces meet then either chaos ensues or order is created from chaos *Seaboard*, 1920 Lost Leviathan: Whales and Whaling Francis Downes Ommanney,1971 *The Leviathan's Lantern* Lauren Santiago,2025-01-07 Marrowspire

humanity's last city clings to the bioluminescent back of the Leviathan a colossal creature of unknown age For generations the Drifters have lived in symbiosis with the Leviathan their history lost to the ocean's depths their lives a precarious dance on the giant's breathing back Twelve year old Isska Avani a resourceful scavenger with a knack for ancient technology unearths a relic whispering of a mythical place the Leviathan's Lantern a submerged city rumored to hold the secrets of humanity's past Driven by an insatiable curiosity Isska embarks on a perilous journey into the ocean's abyss with her two closest friends Rhea Voss a Drifter with an intuitive connection to the ocean currents and Kaelen Baines a brilliant tinkerer ostracized for his unconventional ideas Together they navigate the uncharted depths in a retrofitted submersible facing shimmering forests of bioluminescent jellyfish terrifying underwater storms and the chilling wrath of mechanical sea predators Meanwhile back in Marrowspire Elder Elara Morell the city's spiritual leader views Isska's quest as a sacrilegious threat to their delicate balance with the Leviathan As whispers of dissent turn into open accusations Isska's quest becomes a race against time not only to uncover the truth but to save her city from the rising tide of fear and suspicion Within the breathtaking spectacle of the Leviathan's Lantern they discover a devastating truth the Leviathan is dying its fading light a harbinger of Marrowspire's extinction Armed with forbidden knowledge and ancient technology Isska and her friends must choose between clinging to comforting myths or facing a harsh reality Their return to Marrowspire ignites a clash between tradition and progress faith and reason as they fight to convince the Drifters to embrace a future independent of the dying god they worship Can they awaken their city to the truth before it's too late or will the Leviathan's final breath extinguish humanity's last hope

Ocean Enough and Time James Gorman,1995 Enter James Gorman whose trenchant analysis and crystalline prose part the veil that hides the Southern Ocean from our understanding and appreciation This ocean is a crucible in which world weather is made as it empties enormous amounts of heat into the atmosphere from the warm water other oceans feed it It is home to an elegantly simple ecosystem where penguins predominate and many species of whale have thrived and died
