

Math Libs

name: _____

date: _____

Remember Mad Libs from childhood? You need 2 people; one person hides this story below and just prompts the 2nd person for appropriate words to fill in the blanks. Before prompting, the story may be:

_____ loves to do math. One day (s)he _____ her paper and started to work.
(proper noun) (verb in past tense)

(S)he _____ got all the answers right, and thought (him/her)self a _____ person.
(adverb) (adjective)

And after prompting for the 4 words from the 2nd person, the story may become:

_____ Kelly _____ loves to do math. One day (s)he _____ ate _____ her paper and started to work.
(proper noun) (verb in past tense)

(S)he _____ sadly _____ got all the answers right, and thought (him/her)self a _____ nice _____ person.
(adverb) (adjective)

Hysterical, right? Anyway, today as a way to review and refresh all your math vocabulary, you are going to create a **Math Lib**. Instead of filling in the blanks with any English word, all your words must be **math** related.

STEP 1: brainstorm individually as many math terms as you can that fit the various categories.

math noun

math verb

math adjective

math adverb
