Psychology and Social Justice spans cultures and disciplines to highlight critical paradigms and practices for the study of
social injustice in diverse contexts This book addresses injustice along such lines as race ethnicity gender sexual identity and
social class It also addresses pressing issues of globalization conflict intervention and social policy Freedom, Fatalism,
and Foreknowledge John Martin Fischer,Patrick Todd,2015 We typically think we have free will But how could we have free
will if for anything we do it was already true in the distant past that we would do that thing Or how could we have free will if
God already knows in advance all the details of our lives Such issues raise the specter of fatalism This book collects sixteen
previously published articles on fatalism truths about the future and the relationship between divine foreknowledge and
human freedom and includes a substantial introductory essay and bibliography Many of the pieces collected here build
bridges between discussions of human freedom and recent developments in other areas of metaphysics such as philosophy of
time Ideal for courses in free will metaphysics and philosophy of religion Freedom Fatalism and Foreknowledge will
