Nirvana George Sydney Arundale,1978 Nirvana George S. Arundale,1990-12-01 *Nirvana* George Sydney Arundale,1927 **An Old Master and Other Political Essays** Woodrow Wilson, Why has no one ever written on the art of academic lecturing and its many notable triumphs In some quarters new educational canons have spoken an emphatic condemnation of the college lecture and it would seem to be high time to consider its value as illustrative of an art about to be lost if not as exemplary of forces to be retained even if modified Are not our college class rooms in being robbed of the old time lecture and getting instead a science brief of data and bibliography being deprived also of that literary atmosphere which once pervaded them We are unquestionably gaining in thoroughness but are we gaining in thoughtfulness We are giving to many youths an insight it may be profound into specialties but are we giving any of them a broad outlook There was too often a paralysis of dulness in the old lecture or rather in the old lecturer and written lectures like history and fashion in dress have an inveterate tendency to repeat themselves but on the contrary there was often a wealth of power also in the studied discourse of strong men Masters bent upon instructing and inspiring and there were many such had to penetrate that central secret of literature and spoken utterance the secret of style Their only instrument of conquest was the sword of penetrating speech Some of the subtlest and most lasting effects of genuine oratory have gone forth from secluded lecture desks into the hearts of quiet groups of students and it would seem to be good policy to endure much indifferent lecturing watchful trustees might reduce it to a minimum for the sake of leaving places open for the men who have in them the inestimable force of chastened eloquence For one man who can impart an undying impulse there are several score presupposing the requisite training who can impart a method and here is the well understood ground for the cumulating disfavor of college lecturing and the rapid substitution of laboratory drill But will not higher education be cut off from communion with the highest of all forces the force of personal inspiration in the field of great themes of thought if you interdict the literary method in the class room I am not inclined to consume very many words in insisting on this point for I believe that educators are now dealing more frankly with themselves than ever before and that so obvious a point will by no means escape full recognition before reformed methods of college and university instruction take their final shape But it is very well to be thinking explicitly about the matter meanwhile in order that the lecture may be got ready to come fully militant into the final battle for territory The best way to compass this end would seem to be to study the art of the old masters of learned discourse With Lanfranc one could get the infinite charm of the old monastic school life with Abelard the undying excitement of philosophical and religious controversy with Colet the fire of reforming zeal with Blackstone the satisfactions of clarified learning But Bee and Paris and Oxford have by no means monopolized the masters of this art and I should prefer for the nonce at least to choose an exemplar from Scotland and speak of Adam Smith It will no doubt be possible to speak of him without going over again the well worn ground of the topics usually associated with his great fame

Resurrecting the Mysterious Ingo Swann,2020-08-19 RE INTERPRETING WHAT IT MEANS TO BE AWAKE The Hidden Revelation a previously unpublished manuscript of Ingo s was discovered by Nick Cook in 2016 in a nondescript folder tucked inconspicuously among some of Ingo s notes Now together with Beyond the Gods Devices another undiscovered manuscript it is published for the first time as Resurrecting The Mysterious a posthumous compilation that delivers what we that is Nick and Swann Ryder Productions LLC offer here as Ingo s grand unified theory of the human experience and in part of consciousness itself This asserts that paranormality is part of an expanded reality set rooted in the relationship between quantum theory us the observer and something infinitely more profound even that is fully described in Beyond the Gods Devices The Hidden Revelation is more concerned with us the immanent experience the inward journey Beyond the Gods Devices with that world whatever that world truly is that binds and connects us to the numinous that which at present science is unable to describe For many it may also make the hard problem of consciousness just that little bit easier to comprehend We certainly hope so

The Neo-Buddhist Writings of Lafcadio Hearn Antony Goedhals,2020-04-20 The Neo Buddhist Writings of Lafcadio Hearn Light from the East by Antony Goedhals offers radical rereadings of a misunderstood and undervalued Victorian writer It reveals that at the metaphysical core of Lafcadio Hearn s writings is a Buddhist vision as yet unappreciated by his critics and biographers Beginning with the American writings and ending with the essay and story meditations of the Japanese period the book demonstrates Hearn s deeply personal and transcendently beautiful evocations of a Buddhist universe and shows how these deconstruct and dissolve the categories of Western discourse and thinking about reality to create a new language a poetry of vastness emptiness and oneness that had not been heard before in English or indeed in the West
