*No Second Eden* Turner Cassity, 2002-10-31 If you think that Turner Cassity has mellowed or slowed down since the 1998 release of his selected poems *The Destructive Element* think again In *No Second Eden* Cassity is back more Swiftian than ever Among the targets reduced to ruin are countertenors parole boards the French Symbolists calendar reformers the Yale Divinity School and the cult of Elvis Without turning a blind eye he even extends a toast to Wernher von Braun Surprisingly there is a poem about the Mississippi in which Cassity grew up Unsurprisingly it is a vision quite unlike others of that state Its chilly and amusing precision is about as far from Southern Gothic as you can get although elsewhere there are faint hints of a failed Good Ole Boy Indeed the final poems in the collection are a bit more personal than one expects of this writer As rigorous in form as they are in feeling the poems of *No Second Eden* are not for those with preconceived ideas of poetry or its purpose Early in Cassity's career James Merrill described Cassity's work as an opera house in the jungle True so far as it goes but he might also have called it the jungle in the opera house a glimpse at the savagery behind every facade

*No Second Eden* Turner Cassity, 2002 A collection of poems by American poet Turner Cassity in which he addresses topics such as parole boards calendar reformers the cult of Elvis and others

**No Second Eden** Anthony C. Moore, 2002-07-01 Deals with a boy's coming of age problems in a small New England seacoast town during the 1950s principally his love for a beautiful aspiring ballet dancer The action continues during his first year of college and his encounters with young struggling artists who further complicate his search to find his identity

**On Not Defending Poetry** Catherine Bates, 2017 Sidney's *Defence of Poesy* the foundational text of English poetics is generally taken to present a model of poetry as ideal the poet depicts ideals of human conduct and readers are inspired to imitate them Catherine Bates sets out to challenge this received view Attending very closely to Sidney's text she identifies within it a model of poetry that is markedly at variance from the one presumed and shows Sidney's text to be feeling its way toward a quite different indeed a de idealist poetics Following key theorists of the new economic criticism *On Not Defending Poetry* shows how idealist poetics like the idealist philosophy on which it draws is complicit with the money form and with the specific ills that attend upon it among them commodification fetishism and the abuse of power Against culturally approved models of poetry as profitable as benefiting the individual and the state as providing in the form of intellectual moral and social capital a quantifiable yield the *Defence* reveals an unexpected counter argument one in which poetry is modelled rather as pure

expenditure a free gift a net loss Where a supposedly idealist Defence sits oddly with Sidney s literary writings which depict human behaviour that is very far from ideal a de idealist Defence does not In its radical reading of the Defence this book thus makes a decisive intervention in the field of early modern studies while raising larger questions about a culture determined to quantify the value of the humanities and to defend the arts on those grounds alone *Newman's Poetical Works.
