Multiculturalism In Academe A Source:

Multiculturalism in Academe Libby V. Morris, Sammy Parker, 2019-06-04 Examining college and university curricula this annotated bibliography cites over 300 articles books and other works that document the impact of multiculturalism on higher education during the 1980s and 1990s Included are writings that address change in both the traditional disciplines and the interdisciplinary fields of women s studies African American studies and ethnic studies with emphasis on other controversial works that focus on integrating the emerging scholarship into core curricula and on the evolution and current status of that scholarship After an introduction to multiculturalism the book looks at works that define multiculturalism and examines its effect on traditionalists and reformers alike The authors discuss institutional experiences citing specific examples of curricular integration and resistance Quantitative and qualitative studies are highlighted to show multicultural change in the academy including political correctness debates Each chapter begins with a summary of major issues and works an appendix lists all referenced journals and there is an author index This book provides easy access to a wide range of literature across many disciplines and fields It will be useful to faculty and administrators researchers and students in women studies African American studies ethnic studies and other interdisciplinary fields *Precarious International Multicultural Education: Hegemony, Dissent and Rising Alternatives* Handel Kashope Wright, Michael Singh, Richard Race, 2012-09-22 Multiculturalism and multicultural education are at a paradoxical moment There is work that continues as if the multicultural hegemony was still intact and on the other hand work articulated as if multiculturalism was decidedly passe The essays in this collection will be of considerable interest to academics policy makers and students of both multiculturalism and multicultural education principally because they touch on both perspectives but concentrate for the most part on the thorny problematic of the workings of multicultural education in its present precarious moment Given the renewed urgent attacks in various western countries the cottage industry of death of multiculturalism texts and the rise of the interculturalism transnationalism diaspora alternatives is multiculturalism dying Are the ends of multiculturalism the management or celebration of diversity representation and recognition for all in society creation of just and equitable communities at the global national and local school classroom levels better theorized and realized through the ascendant alternatives Representing the precarious moment in Canada Ireland Australia the United States and the United Kingdom the essays in this collection address these questions and both depict and trouble hegemonic multicultural education and contrast it with its supposed successor regimes *The Road to Multiculturalism in South Korea* Timothy Lim, 2020-12-13 This book aims to capture the complicated development of Korea from monoethnic to multicultural society challenging the narrative of ethnonational continuity in Korea through a discursive institutional approach At a time when immigration is changing the face of South Korea and an increasingly diverse society becomes empirical fact this doesn t necessarily mean that multiculturalism has been embraced as a normative policy based response to that fact The approach here diverges from

existing academic analyses which tend to conclude that core institutions defining Korea's immigration and nationality regimes and which crucially also reflect a basic and hitherto unyielding commitment to racial and ethnic homogeneity will remain largely unaffected by increasing diversity. Here this title underscores the critical importance of discursive agency as a necessary corrective to still dominant power and interest-based arguments. In addition, discursive agents are found to play a central role in communicating, promoting, and helping to instill the ideas that create a basis for change on the road to remaking Korean society. *The Road to Multiculturalism in South Korea* will be of interest to students and scholars of Asian studies, immigration and migration studies, race and ethnic studies, as well as comparative politics broadly.

The Best Books for Academic Libraries: General works, military & naval, library science, 2002 *International Handbook of Research on Multicultural Science Education* Mary M. Atwater, 2022-06-30 This handbook gathers in one volume the major research and scholarship related to multicultural science education that has developed since the field was named and established by Atwater in 1993. Culture is defined in this handbook as an integrated pattern of shared values, beliefs, languages, worldviews, behaviors, artifacts, knowledge, and social and political relationships of a group of people in a particular place or time that the people use to understand or make meaning of their world, each other, and other groups of people, and to transmit these to succeeding generations. The research studies include both different kinds of qualitative and quantitative studies. The chapters in this volume reflect differing ideas about culture and its impact on science learning and teaching in different K-14 contexts and policy issues. Research findings about groups that are underrepresented in STEM in the United States and in other countries related to language issues and indigenous knowledge are included in this volume.

Multicultural Counseling and Psychotherapy Leroy G. Baruth, M. Lee Manning, 2003 Written to explore the lives and potential counseling problems of African American, Hispanic American, Asian American, European American, and Native American populations, this book considers the powerful influences of a client's developmental stage and cultural background. It maintains that integrating multicultural and lifespan considerations are crucial to counseling effectiveness. Includes coverage on intervening with clients from counseling specific groups during various lifespan stages and professional issues, future directions of the multicultural counseling field.
