Navigating Islands And Continents Conversations And Contestations In And:

Navigating Islands and Continents Cynthia G. Franklin, Ruth Hsu, Suzanne Kosanke, 2000-01-01 This is a collection of essays poems and interviews that explores the interrelations among Pacific Asian and continental U S identities and literatures

Climate Change and Indigenous Peoples Randall Abate, Elizabeth Ann Kronk, 2013-01-01 Climate Change and Indigenous Peoples offers the most comprehensive resource for advancing our understanding of one of the least coherently developed of climate change policy realms legal protection of vulnerable indigenous populations The first part of the book provides a tremendously useful background on the cultural policy and legal context of indigenous peoples with special emphasis on developing general principles for climate change mitigation and adaptation solutions The remainder of the volume then carefully and thoroughly works through how those general principles play out for different regional indigenous populations around the globe All of the contributions to the volume are by leading experts who bring their insights and innovative thinking to bear on a truly complex subject Whether as a novice s starting point or expert s desktop reference I cannot think of a more useful resource for anyone interested in climate policy for indigenous peoples J B Ruhl Vanderbilt University Law School US In Climate Change and Indigenous Peoples editors Randy Abate and Elizabeth Kronk have assembled a truly comprehensive and informative look at the special issues that indigenous peoples face as a result of climate impacts and an overview of the law international and domestic climate change and human rights substantive and procedural that applies to those issues One of the great strengths of the book is that no group of indigenous people is made to stand proxy for all the others instead after exploring the general issues facing all indigenous peoples and the general legal strategies they use the book focuses most of its attention on the specific climate change issues that confront particular groups South American indigenous peoples the various tribes of Native Americans in the US the indigenous peoples of the Arctic collectively as well as in respect to particular Arctic countries Pacific Islanders indigenous peoples in Asia the various groups of Aborigines and Torres Islanders in Australia the Maori on New Zealand and several tribes in Kenya Africa For people interested in climate change and climate change adaptation this book provides a unique overview of the special vulnerabilities and plights of indigenous peoples issues that must be considered as the world works to formulate effective and protective climate change adaptation policies For people interested in indigenous peoples and international human rights this book paints a grim picture of the various ways in which climate change threatens this very diverse group of cultural entities and the deep knowledge of place that they usually possess while at the same time offering hope that the law can find ways to keep them from disappearing and indeed that indigenous peoples might just help the rest of us to survive as well Robin Kundis Craig University of Utah S J Quinney College of Law US It is one of the world s cruelest ironies that some of the earliest effects of climate change are being felt by indigenous populations around the world even though they contributed no more than trivial amounts of the greenhouse gases that are at the root of much of the problem and they are so politically and

economically powerless that they played no role in the decisions that have led to their plight At the same time many of these populations are victimized by certain actions designed to reduce emissions such as land clearing for biofuels cultivation and restrictions on forest use Professors Abate and Kronk have assembled a formidable collection of experts from around the world who demonstrate the diversity of challenges facing these indigenous peoples and the opportunities and challenges in using various international and domestic legal tools to seek redress This book will be an invaluable resource for all those examining the legal remedies that may be available either now or as the law develops in the years to come Michael B Gerrard Columbia Law School US This timely volume explores the ways in which indigenous peoples across the world are challenged by climate change impacts and discusses the legal resources available to confront those challenges Indigenous peoples occupy a unique niche within the climate justice movement as many indigenous communities live subsistence lifestyles that are severely disrupted by the effects of climate change Additionally in many parts of the world domestic law is applied differently to indigenous peoples than it is to their non indigenous peers further complicating the quest for legal remedies The contributors to this book bring a range of expert legal perspectives to this complex discussion offering both a comprehensive explanation of climate change related problems faced by indigenous communities and a breakdown of various real world attempts to devise workable legal solutions Regions covered include North and South America Brazil Canada the US and the Arctic the Pacific Islands Fiji Tuvalu and the Federated States of Micronesia Australia and New Zealand Asia China and Nepal and Africa Kenya This comprehensive volume will appeal to professors and students of environmental law indigenous law and international law as well as practitioners and policymakers with an interest in indigenous legal issues and environmental justice

Beyond The Borders Deborah L. Madsen,2003-08-20 This book challenges the boundaries of postcolonial theory

Focusing on American literature it examines how America's own imperial history has shaped the literature that has emerged from America from Native American Latino Black and Asian American writers They contrast this with postcolonial literature from countries whose history has been shaped by American colonialism from Canada Central America and the Caribbean to Hawaii Indonesia and Vietnam It explores questions about national identity and multiculturalism why for instance is a Native writer categorised within American literature if writing on one side of the border but as Canadian and postcolonial if writing on the other This is a challenging collection that raises questions not only about the boundaries of postcolonial theory but also about ethnicity and multiculturalism and the impact of immigration and assimilation

Asian Settler Colonialism
Jonathan Y. Okamura, Candace Fujikane, 2008-08-31 Asian Settler Colonialism is a groundbreaking collection that examines the roles of Asians as settlers in Hawaii Contributors from various fields and disciplines investigate aspects of Asian settler colonialism to illustrate its diverse operations and impact on Native Hawaiians Essays range from analyses of Japanese Korean and Filipino settlement to accounts of Asian settler practices in the legislature the prison industrial complex and the U S military to critiques of Asian settlers claims to Hawaii in literature and the visual arts
