Rank Coup Development:

Challenges to Democratic Governance in Developing Countries Gedeon Mudacumura, Göktuğ Morçöl, 2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries statistics show that the majority of these countries have not yet achieved significant improvements in living standards While some regions make strides towards improving the living conditions of their citizens Sub Saharan Africa for instance is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries As a result the institutional foundations of these countries are weakened public funds are misappropriated and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries This book investigates the problems of democratic governance particularly as they relate to corruption and also whether democracy should be based on universal principles or local context and historical factors It also analyses the rule of law in promoting democratic governance and curbing corruption and if governmental non governmental organizations and civil societies are effective in promoting democratic governance and curbing corruption This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries It is premised on the importance of bridging theory and practice which has been lacking in most local and international development publications making of interest to scholars and policy makers alike concerned with public administration in developing countries

Marching Orders Jon Huer,1989-07-07

This modern day rags to riches story tells how one of the poorest nations in the world evolved into one of the most technologically advanced How did South Korea do it The miracle that occurred in South Korea was produced in essence by military men many of whom had undergone extensive managerial training in the United States in the preceding decade who gave marching orders to a responsive populace Marching Orders a historically factual yet fast paced and dramatic page turner chronicles in five parts the history and events that led to General Park Chung Hee s 1961 coup d etat and the transformations in Korean society that followed it during the next decade Part One surveys Korea prior to 1961 a deprived colony during the Japanese occupation then a war devastated barely industrialized nation whose existence depended heavily on U S economic aid Part Two analyzes the military establishment a crucial factor in Korea s economic prosperity even today The military takeover of 1961 and the subsequent establishment of the Supreme Council for National Reconstruction SCNR were the turning points for this politically and economically bankrupt nation These events led to the massive changes which are detailed in Parts Three and Four along with the rationalization of the political sphere and the various aspects of economic rationalization including the now famous New Village Movement a model of agricultural development for other emerging

nations In Part Five the role and potential of the military in national development are explained and South Korea is presented as a success story Indeed *Marching Orders* could well serve as a How To book for emerging countries Highly readable *Marching Orders* has been written for the generalist without sacrificing scholarship It will also prove useful to specialists in sociology political science economics and Southeast Asia to entrepreneurs engaged in trade with South Korea and to those interested in Third World Development An excellent addition to the reading lists of courses in development comparative history and military civil cooperation *Ghana Human Development Report* ,1997 **Netherlands Review of Development Studies** ,1987 *The Military Coup D'état as a Political Process* John Samuel Fitch,1977 **Standard & Poor's Creditweek** ,2007
