Range War:

Wyoming Range War John W. Davis, 2011-11-19 Wyoming attorney John W Davis retells the story of the West's most notorious range war. Having delved more deeply than previous writers into land and census records, newspapers, and trial transcripts, Davis has produced an all-new interpretation. He looks at the conflict from the perspective of Johnson County residents, those whose home territory was invaded and many of whom the invaders targeted for murder, and finds that contrary to the received explanation, these people were not thieves and rustlers but legitimate citizens. The broad outlines of the conflict are familiar: some of Wyoming's biggest cattlemen, under the guise of eliminating livestock rustling on the open range, hire two dozen Texas cowboys and, with range detectives and prominent members of the Wyoming Stock Growers Association, invade north-central Wyoming to clean out rustlers and other undesirables. While the invaders kill two suspected rustlers, citizens mobilize and eventually turn the tables surrounding the intruders at a ranch where they intend to capture them by force. An appeal for help convinces President Benjamin Harrison to call out the army from nearby Fort McKinley, and after an all-night ride the soldiers arrive just in time to stave off the invaders' annihilation. Though taken prisoner, they later avoid prosecution. The cattle barons' powers of persuasion in justifying their deeds have colored accounts of the war for more than a century. **Wyoming Range War** tells a compelling story that redraws the lines between heroes and villains.

The Great Range Wars Harry Sinclair Drago, 1985 Harry Sinclair Drago writes with authority and a sense of drama about the bloodiest range conflicts in Texas, Arizona, New Mexico, Wyoming, and Montana late in the nineteenth century. He details the background and events surrounding the Lincoln County War of New Mexico, 1878-81, a violent struggle for economic supremacy between cattle barons and merchants; the ironically named Pleasant Valley War of Arizona, 1886-92, a conflict between cattlemen and sheepmen complicated by personal vendettas and old family rivalries; and the Johnson County War of Wyoming, 1892, a folly that turned bloody when big cattlemen rode against suspected and known thieves with orders to shoot. These pages are filled with some showy characters: cowmen Charles Goodnight and Oliver Loving, the Grahams and Tewksburys, western counterparts of the Hatfields and McCoys, William Bonney, alias Billy the Kid, who cut a swath in the Lincoln County War, and Ella Watson, said to have been the notorious Cattle Kate Maxwell, after she was lynched for cattle rustling.

Age of the Gunfighter Joseph G. Rosa, 1995 Joseph G. Rosa's vivid and expertly written tale of this violent time combines contemporary accounts with meticulous historical research and an unjaundiced appraisal of the facts. Telling the story of every major gunfighter, peace officer, and outlaw of the West, Rosa places them within the context of a violent frontier and the coming of law and order. Complementing the text are twenty-seven outstanding color spreads featuring firearms from the Gene Autry Western Heritage Museum, Los Angeles, and the Buffalo Bill Historical Center, Cody. Many of the spreads contain guns owned and used by such well-known individuals as Pat Garrett, Billy the Kid, Doc Holliday, Wyatt Earp, Wild Bill Hickok,

The Great Cowboy Strike Mark Lause,2018-01-16 Although later made an icon of rugged individualism the American cowboy was a grossly exploited and underpaid seasonal worker who waged a series of militant strikes in the generally isolated and neglected corners of the Old West Mark Lause examines those neglected labour conflicts couching them in the context of the bitter and violent range wars that broke out periodically across the region and locating both among the political insurgencies endemic to the American West in the so called Gilded Age

Cartel Criminality Christopher Harding,Jennifer Edwards,2016-04-08 Anti competitive business cartels engaging in practices such as price fixing market sharing bid rigging and restrictions on output are now subject to strong official censure and rigorous legal control in a large number of jurisdictions across the world The longstanding condemnation under the US Sherman Act of 1890 has been taken up although in a rather different form during the last thirty years in the EC EU and in European national jurisdictions in particular but also in a range of countries outside North America and Europe Legal control has not only extended geographically but has intensified as a number of jurisdictions have moved beyond administrative regulation and penalties to embrace enforcement through civil liability and most significantly in terms of policy and rhetoric the methods of criminal law It is therefore timely to consider critically this development of legal control and assess its achievement to date and its future prospects But such an exercise requires an understanding of the reasons and need for such regulation based on a clear appreciation of the nature and extent of the economic and social malaise which is its subject What more exactly are such business cartels why do they come into existence and persist why are they regarded as being so bad and what are the objectives within this increasingly complex and multi level phenomenon of legal control By seeking to answer such fundamental questions this book sets a research agenda for a pathology aetiology and criminology of business cartels and probes more accurately their nature operation endurance and perceived delinquency

The Future of War in Its Technical, Economic, and Political Relations Jan Bloch,1899 **The New Urban Park** Hal Rothman,2004 From Yellowstone to the Great Smoky Mountains America s national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century America has changed dramatically since then and so has its conceptions of what parkland ought to be In this book one of our premier

environmental historians look at the new phenomenon of urban parks focusing on San Francisco's Golden Gate National Recreation Area as a prototype for the twenty-first century. Cobbled together from public and private lands in a politically charged arena, the GGNRA represents a new direction for parks as it highlights the long-standing tension within the National Park Service between preservation and recreation. Long a center of conservation, the Bay Area was well positioned for such an innovative concept. Writing with insight and wit, Rothman reveals the many complex challenges that local leaders, politicians, and the NPS faced as they attempted to administer sites in this area. He tells how Representative Phillip Burton guided a comprehensive bill through Congress to establish the park and how he and others expanded the acreage of the GGNRA, redefined its mission to the public, forged an identity for interconnected parks, and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park. Engagingly written, *The New Urban Park* offers a balanced examination of grassroots politics and its effect on municipal, state, and federal policy. While most national parks dominate the economies of their regions, GGNRA was from the start tied to the multifaceted needs of its public and political constituents, including neighborhood, ethnic, and labor interests, as well as the usual supporters from the conservation movement. As a national recreation area, GGNRA helped redefine that category in the public mind. By the dawn of the new century, it had already become one of the premier national park areas in terms of visitation. Now, as public lands become increasingly scarce, GGNRA may well represent the future of national parks in America. Rothman shows that this model works, and his book will be an invaluable resource for planning tomorrow's parks. *The Dial*, 1910 *Land and Water*, 1915
