

Ridgewood Analogies

Grades 4–8

Book 1, for fourth grade, teaches students how to solve analogies that exemplify five kinds of relationships: descriptive analogies, comparative analogies, categorical analogies, serial analogies, and causal analogies. Book 2, for fifth grade, and Book 3, for sixth grade, follow the same format, but use more difficult vocabulary. Organized by subject areas, Books 4 and 5, for seventh and eighth grade, contain analogies in **Geography, History and Government, Language Arts, and Math**. Students use their learning in these areas to solve analogies that are challenging as well as interesting.

Each kind of analogy is introduced and reinforced through the following four levels:

- **Novice:** Students are given an analogy and find the analogy that corresponds to it.
- **Apprentice:** Students complete an analogy by choosing a word from a Word Bank.
- **Masters:** Students choose two words from the Word Bank to complete an analogy.
- **Super Masters:** Students are given a relationship to create two analogies that correspond to one another.
