Trauma Care Elaine Cole, 2009-03-16 The often complex problems of the trauma patient present many challenges to front line emergency staff Multiple injuries involving many systems of the body require careful and timely prioritisation and intervention in the emergency department TraumaCare provides emergency nurses with a practical guide to the systematic assessment and management of trauma patients equipping them with the clinical knowledge and practical skills necessary to initially assess and care for the trauma patient in the emergency department trauma environment Trauma Care explores the concept of trauma assessment focusing on patient priorities and interprofessional trauma team working Individual chapters look at the essential assessment and management issues for each system of the body and specific age related complications Emphasis is placed on key patient priorities with acknowledgement to the common pitfalls in initial trauma care This text will be essential for all emergency nurses and those working in the emergency department

Medicine and Social Justice Rosamond Rhodes, Margaret Battin, Anita Silvers, 2012-07-16 Because medicine can preserve life restore health and maintain the body's functions it is widely acknowledged as a basic good that just societies should provide for their members Yet there is wide disagreement over the scope and content of what to provide to whom how when and why In this unique and comprehensive volume some of the best known philosophers physicians legal scholars political scientists and economists writing on the subject discuss what social justice in medicine should be Their contributions deepen our understanding of the theoretical and practical issues that run through the contemporary debate The forty two chapters in this reorganized second edition of *Medicine and Social Justice* update and expand upon the thirty four chapters of the 2002 first edition Eighteen chapters from the original volume are revised to address policy changes and challenging issues that have emerged in the intervening decade Twenty two of the chapters in this edition are entirely new The treatment of foundational theory and conceptual issues related to access to health care and rationing medical resources have been expanded to provide a more comprehensive and nuanced discussion of the background concepts that underlie distributive justice debates with global perspectives on health and well being added New additions to the section on health care justice for specific populations include chapters on health care for the chronically ill soldiers prisoners the severely cognitively disabled and the LGBT population The section devoted to dilemmas and priorities addresses an array of topics that have recently become especially pressing because of new technologies or altered policies New chapters address questions of justice related to genetics medical malpractice research on human subjects pandemic and disaster planning newborn screening and justice for the brain dead and those with profound neurological

injury Reviews of the first edition This compilation brings a variety of perspectives national settings and disciplinary backgrounds to the topic and provides a unique survey of theoretical and applied thinking about the connections between health care and social justice Physicians and others interested in this field will find this book an engaging introduction to the theoretical and practical challenges pertaining to social justice and health care New England Journal of Medicine Although much work in bioethics has focused on clinical encounters there has been a current of discussion about questions of social justice for decades at least since the allocation of access to dialysis was widely understood in the 1960s to be a matter of justice not of medical judgment This volume will facilitate heightened awareness and deeper discussion of such issues JAMA Impressively the editors have chosen an array of essays that explore the philosophical and bioethical foundations of distributive justice review the current practice of rationing and patients access to care in a number of different countries highlight the issues raised by various special needs groups and then wrestle with some dilemmas in assessing priorities in distributing healthcare This book is an excellent resource Doody s The Lancet ,1883 **Railway Conductors' Monthly** ,1912 British Medical Journal ,1918 *Aeronautics* ,1919 *House of Commons Debates, Official Report* Canada.
