

The background of the entire page is a historical painting depicting a large crowd of people gathered in a town square. In the upper center, an American flag is flying. The crowd is diverse, with people wearing various styles of 18th or 19th-century clothing, including hats and long coats. Some people are looking towards the camera, while others are engaged in conversation or looking away. Rites Of Assent:

The Rites of Assent Sacvan Bercovitch, 2014-01-14 The Rites of Assent examines the cultural strategies through which America served as a vehicle simultaneously for diversity and cohesion fusion and fragmentation Taking an ethnographic cross cultural approach The Rites of Assent traces the meanings and purposes of America back to the colonial typology of mission and specifically in chapters on Puritan rhetoric Cotton Mather Jonathan Edwards and the movement from Revival to Revolution to the legacy of early New England

Rites of Assent Sacvan Bercovitch, 1992 *Mahdī 'Abd al-Ḥakīm 'Abd al-Ġanī Muḥammad Qāsim*, 1996 Ruthless Democracy Timothy B. Powell, 2000-05-28 In *Ruthless Democracy* Timothy Powell reimagines the canonical origins of American identity by juxtaposing authors such as Hawthorne Melville and Thoreau with Native American African American and women authors Taking his title from Melville Powell identifies an unresolvable conflict between America's multicultural history and its violent will to monoculturalism Powell challenges existing perceptions of the American Renaissance the period at the heart of the American canon and its evolutions by expanding the parameters of American identity Drawing on the critical traditions of cultural studies and new historicism Powell invents a new critical paradigm called historical multiculturalism Moving beyond the polarizing rhetoric of the culture wars Powell grounds his multicultural conception of American identity in careful historical analysis *Ruthless Democracy* extends the cultural and geographical boundaries of the American Renaissance beyond the northeast to Indian Territory Alta California and the transnational sphere that Powell calls the American Diaspora Arguing for the inclusion of new works Powell envisions the canon of the American Renaissance as a fluid dialogue of disparate cultural voices

Rites of Assent 'Abd al-Ḥakīm Qāsim, 1995 The first English language translation of a controversial Egyptian writer The Turn Around Religion in America Professor Michael P Kramer, Professor Nan Goodman, 2013-05-28 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion *The Turn Around Religion in America* offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion's powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch's emphasis on the rhetoric ritual

typology and symbology of religion and his recognition that with each aesthetic enactment of religion's power we learn something new

[An Angel Directs the Storm](#) Michael Northcott, 2004-09-24 This passionately argued book provides the first in depth investigation of the religious politics of current American neo conservatism It shows that behind the neo imperialism of the White House and George W Bush lies an apocalyptic vision of the United States's sacred destiny at the end of history a vision that is shared by millions of Americans Michael Northcott traces the roots of American apocalyptic to Puritan Millennialism and contemporary fundamentalist readings of the Book of Revelation He suggests that Americans urgently need to recover a critique of Empire of the kind espoused by the founder of Christianity or else risk becoming idolaters of a new Roman Empire that leads others into servitude

The Turn Around Religion in America Michael P. Kramer, 2016-02-24 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion *The Turn Around Religion in America* offers a model of religion that moves in a reciprocal relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion's powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch's emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic enactment of religion's power we learn something new

[American Experimental Poetry and Democratic Thought](#) Alan Marshall, 2009 Alan Marshall takes Alexis de Tocqueville's discussion of *Some Sources of Poetic Inspiration in Democracies* in the second volume of his *Democracy in America* as the starting point for a wide ranging examination of the nature of democratic thought and expression in American experimental poetry from Walt Whitman and Emily Dickinson in the mid nineteenth century to George Oppen Frank O Hara and Robert Creeley a century later The book begins by considering the political significance of what Marshall describes as the invisible physiognomy of Whitman's poetry which is followed by a re evaluation of the flawed republican humanism of Ezra Pound in the light of the thought of Hannah Arendt Other chapters deal with Mina Loy Lorine Niedecker Wallace Stevens William

Carlos Williams and Muriel Rukeyser The book argues against the narrowly ideological interpretation of politics that dominates contemporary literary studies To that extent it recalls Tocqueville's concern to underline the differences between his own methods and perspectives and the historical determinism of his contemporaries Marshall brings together an exceptional variety of theoretical writing including works by Theodor Adorno Seyla Benhabib Stanley Cavell Sigmund Freud Martin Heidegger Immanuel Kant James Madison Karl Marx David Riesman and Donald Winnicott as he seeks to expand and develop Tocqueville's circumspect humanist critical trajectory The chapters are conceived as a series of innovative dialogical constellations to which the close reading of poetry is central The aim throughout is to measure the thought of the poets or their poems against the thoughts of those who are more often called thinkers
