Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting,1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor s Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and

historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting's authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what's the real thing and what is spurious Large's way about London Henry Large,1867 Early Celtic Art , For many perhaps most the title Early Celtic Art summons up images of Early Christian stone crosses in Ireland Scotland Wales or Cornwall of Glendalough Iona or Tintagel of the Ardagh Chalice or the Monymusk Reliquary of the great illuminated gospels of Durrow or Lindisfame But as Stuart Piggott notes the consummate works of art produced under the aegis of the early churches in Britain or Ireland in regions Celtic by tradition or language have an ancestry behind them only partly Celtic One strain in an eclectic style was borrowed from the ornament of the northern Germanic world the classical Mediterranean and even the Eastern churches Early Celtic art originating in the fifth century b c in Central Europe was already seven or eight centuries old when it was last traced in the pagan prehistoric world and the transmission of some of its modes and motifs over a further span of centuries into the Christian Middle Ages was an even later phenomenon This volume presents the art of the prehistoric Celtic peoples the first great contribution of the barbarians to European arts It is an art produced in circumstances that the classical world and contemporary societies unhesitatingly recognize as uncivilized Its appearance it has been said by N K Sandars in Prehistoric Art in Europe is perhaps one of the oddest and most unlikely things to have come out of a barbarian continent Its peculiar refinement delicacy and equilibrium are not altogether what one would expect of men who though courageous and not without honor even in the records of their enemies were also savage cruel and often disgusting for the archaeological refuse as well as the reports of Classical antiquity agree in this verdict This book comprises the first major exhibition of Early Celtic Art from its origins and beginnings to its aftermath and was assembled by Stuart Piggott who taught later European prehistory to Honors students in Archaeology Provided by publisher **The Breeders' Journal** ,1920 *Annual Report of the Department of Agriculture and Food* Ontario.
