Encourages forensic observation of the structures and colours of individual flowers. Explains how to capture the detail and essence of more than thirty flowers from the tiniest common daisy to the complex tightly pleated English rose. Features over 400 beautiful illustrations including templates for each flower. This book studies a variety of flowers and shows how to recreate them in silk using unique and individual techniques. Inspired by flowering blooms, it encourages experimentation and problem solving to discover sympathetic methods of making silk flowers to immortalise their fleeting beauty. It explains how to capture the personalities that make each of these flowers individual, encouraging you to observe the wonders of nature more closely and to think about how you might interpret what you see.
