Group Decisions K.J. Radford,2013-03-09 ecision making is one of the most important activities in both our profes D sional
and our private lives today The literature on the subject has grown considerably over the last fifty years and it now covers
many different approaches to the subject These approaches range from that of creating a mathematical model of the decision
situation under consideration as in operations research and other forms of mathematical decision analysis to those that are
based on human and organizational behavior Recently those working in the field have begun to combine approaches to the
study of decision situations that arise in organizations in our personal lives and in the communities in which we live This book
is an attempt to assist those concerned with decision making to work with this combination of approaches In the past
decision problems have been considered according to the condi tions under which they arise and to some extent in terms of
the approaches available for their resolution Writers on the subject who are mathematically oriented have devised a method
of classifying decisions based on the type of mathematics that they suggest be used in the resolution of the problems This
approach leads to the division of decision situations into the categories of cer tainty uncertainty risk and competition
Deterministic models available in oper ations research have then been offered as the means of treating decision situations in
the category of certainty **T-Kit 6 - Training essentials** Sabine Klocker,Snežana Bačlija Knoch,Stefan
Manevski,2021-12-01 The training of youth workers is one of the main priorities of both the European Commission and the
Council of Europe and of their partnership in the field of youth Youth work is in the spotlight for both institutions and youth
workers are essential for the quality of its provision This revised T Kit aims to equip youth workers and youth trainers with
the essentials of non formal education training It is a practical tool for them to develop training competences and learn more
about educational theory concepts tools practices resources as well as hands on tips as this handbook is written by trainers
for trainers and youth workers in the European youth field Whereas other T Kits focus on one specific area of youth work
training this one emerges from the broader European youth work context and enables trainers and youth workers to reflect
on their daily practice as this publication follows the logic of an entire training cycle from beginning to end of any youth
training programme with an international dimension The European youth training field has undergone massive changes since
this T Kit was first published in 2002 Especially when it comes to digitalisation the focus on trainer competences and
competence development training standards and quality criteria for training recognition of non formal education accessibility
and diverse ability dimensions Topics such as access gender environment and sustainability or the focus on learning
environments emotional management and well being of the trainer have greatly changed non formal education settings This
T Kit offers information links and resources on how to work with young people in non formal education training settings

today and make a difference in their personal lives as well as their peer groups and communities beyond
