Tony Wagner,2000 **Making the Grade** Tony Wagner, Dramatically reframing the debate on education in America Making the Grade shows why today s test driven reforms will fail and points the way toward a system that benefits all students **Making the Grade** Tony Wagner,2003-12-16 This book provides a guide for a long overdue public dialogue about why and how we need to reinvent our nation s schools How has the world changed for our children what do all students need to know in light of these changes how do we hold students and schools accountable for results what do good schools look like and what must leaders do to create more of these schools These are some of the questions that drive this book The answers emerging to these questions may surprise many The most successful public schools of the 21st century look a lot more like our 19th century village schools than our current factory model of schooling This book describes these new village schools that have been created in the last decade and suggests that they are a prototype for the schools of the future *Leadership* ,2005 [Annual Meeting Program](#) American Educational Research Association,2002 **Making Schools Work** William G.
