**Making Archaeology Happen** Martin Oswald Hugh Carver,2016-06-16 Archaeology is for people is the theme of this book Split between the academic and commercial sectors archaeological investigation is also deeply embedded in the needs of local communities making it simultaneously an art science and social science Such a multi disciplinary discipline needs special methods and creative freedom not repetitive responses Carver argues that commercial procedures and academic theory are both suffocating creativity in fieldwork He d like to see us bring much more diversity and technical ingenuity to every opportunity and maintains this is more a matter of getting ourselves free of dogma than needing more time and money This has many implications for the way archaeology is designed and procured moving archaeologists up the professional ladder from builder to architect with contracts based on quality of design not the price
