**Mid-Air** Alicia D. Williams, 2025-04-08 Thirteen year old Isaiah grapples with the loss of his best friend as he strives to fit into a world that expects him to toughen up which leads him on a exploration of identity and vulnerability **Mid-Air** Victoria Shorr, 2022-05-17 Both these fine novellas unfurl the kind of complicated family tapestries that every generation ends up weaving from money and love Wall Street Journal Fate is explored in the fall and rise of two twentieth century American families Victoria Shorr's remarkable gift for depicting the inner lives of complex characters shines in two powerful explorations of family ambition class and status In Great Uncle Edward a family gathers for dinner At ninety three Great Uncle Edward commands the table in his three piece suit Cousin Russell attended both Harvard and Yale but is now reduced to selling off the family books sisters Betty and Molly are caught between ghosts of a storied past and creeping destitution These lives are signposts along the downward spiral of an old aristocracy Cleveland Auto Wrecking introduces Sam White an immigrant from eastern Europe He cannot read but has a gift for math and an instinct for the value of junk We follow his clan through the Depression to the postwar boom in the West where their fortunes soar creating new tests of loyalty Taken together these two novellas might be the reverse images of the American dream in the twentieth century They ask to what degree in the face of such powerful forces as love death and social constraints do any of us have control over our own lives

*Philosophy of Science and Occult, 1st Ed.* Patrick Grim, 1983-06-30 Philosophy of Science and the Occult has two aims to introduce the philosophy of science through an examination of the occult and to examine the occult rigorously enough to raise central issues in philosophy of science Patrick Grim has compiled selections by authors with divergent views on astrology parapsychology and UFO's to emphasize topics standard to the philosophy of science He discusses issues such as confirmation and selection for testing possibility and a priori probabilities causality and time explanation and the nature of scientific laws the status of theoretical entities the problem of demarcation theory and observation and science and values A sketch of where these arise in the collection accompanies the table of contents The context of the occult serves to make the initial introduction of these issues immediately understandable and forcefully compelling **A Sanskrit Reader: Notes.**
