Cameroon Grassfields Civilization Jean-Pierre Warnier, 2012 This book brings and blends together a dozen scholarly articles published by the author since the 1970s It sketches two different yet related stories first that of one of the most ancient and prestigious African civilizations the antiquity and sophistication of which are becoming more and more prominent as field research unfolds their many facets Second the story of the researcher himself who has had to alter and shift his approach to that civilization as he got to meet Grassfielders colleagues friends and scholars who changed his views about the Grassfields kingdoms and their people This book bears witness to those many encounters Historical and anthropological research is not only a question of relevant theories and methodologies It is also a human endeavour made of networks and friendships

Biographies Between Spheres of Empire Achim von Oppen, Silke Strickrodt, 2018-10-16 Biographical research can illuminate imperial and colonial history This is particularly true of Africa where empires competed with one another and colonial society was characterised by rigid divisions In this book five biographical studies explore how in the course of their lives interpreters landowners students and traders navigated the boundaries between the various spaces of the colonial world With a focus on African life worlds the authors show the disruptions and constraints as well as the new options and forms of mobility that resulted from colonial rule This book was originally published as a special issue of The Journal of Imperial and Commonwealth Studies

The Intestines of the State Nicolas Argenti, 2008-09-15 The young people of the Cameroon Grassfields have been subject to a long history of violence and political marginalization For centuries the main victims of the slave trade they became prime targets for forced labor campaigns under a series of colonial rulers Today s youth remain at the bottom of the fiercely hierarchical and polarized societies of the Grassfields and it is their response to centuries of exploitation that Nicolas Argenti takes up in this absorbing and original book Beginning his study with a political analysis of youth in the Grassfields from the eighteenth century to the present Argenti pays special attention to the repeated violent revolts staged by young victims of political oppression He then combines this history with extensive ethnographic fieldwork in the Oku chiefdom discovering that the specter of past violence lives on in the masked dance performances that have earned intense devotion from today s youth Argenti contends that by evoking the imagery of past cataclysmic events these masquerades allow young Oku men and women to address the inequities they face in their relations with elders and state authorities today
