Humanising Birth Elizabeth Newnham,Lois McKellar,Kaveri Mayra,Yvonne Kuipers,2025-11-06 This book develops on how with the birth of every baby comes the possibility of love connection and optimal health and well being It shows how the salutogenic pathways that are set up at the start of life are not only for the short term but throughout life and into the next generation The start of life is now a well known point of health intervention as can be seen by many government health policies on the first 1000 days from conception to age two There is evidence to show that what occurs during birth and the early postnatal period affects the long term health of the child Birth is a significant moment in time not only for the child but also for the mother There are increasing rates of mental health issues in this population with maternal suicide being a leading cause of mortality in many high income countries and postnatal depression increasing in women birthing people and partners fathers which has a significant impact on the developing family This is occurring within the backdrop of an environment of increasing reports of disrespect and

abuse during childbirth and the dual issues of inadequate access to maternity care and over medicalisation Scaling up midwifery is seen as a vital part of the solution to current maternity crises but there are potential barriers to midwives providing humanised care within current birth settings including witnessing or being complicit in dehumanising practices feeling unsupported or managing unsafe staffing levels Humanising birth can be seen as a resistance to dehumanising disrespectful over medicalised and industrialised birth practices which is grounded in the language of human rights and ethics In this book we provide a solution focused approach to current complexities through the idea of humanised birth first providing a definition and domains then exploring the idea from an institutional level through the level of relationships to the level of the individual Support for the growth of secure bonds of love health and wellbeing for thriving rather than just surviving is critical not only to a healthy happy productive life but also to cohesive compassionate creative and productive communities
