## Evolution of a Common Disorder

advers through the usual round of work and play, a deep sense of weariness and a desire for rest are characteristic of the prodrome. A vascular headache is usually preceded by a dull, throbbing pain in the head and neck, which may be accompanied by nausea, vomiting, or even the chief, most common at work. Many patients during an attack and exhibit diminished loss of interest in their usual activities.

The relation of the disorder to the environment and the individual is complex and the subject of many controversies. In the classical migraine, the attacks occur during sleep, and their duration is usually 24 hours. At this point we must turn to the history of the disorder. The classical migraine is a disorder of the nervous system, and the typical prodrome of the disorder is a sense of weariness and a desire for rest. The disorder is a disorder of the nervous system, and the typical prodrome of the disorder is a sense of weariness and a desire for rest.

Nowhere in the literature can we find more vivid and descriptive of migrainous states than in Living's monograph.
