Migration And Society In Early Modern England:

Migration and Society in Early Modern England Peter Clark, David Souden, 1987 Theatre, Finance and Society in Early Modern England Theodore B. Leinwand, 1999-02-04 This interesting study examines emotional responses to socio-economic pressures in early modern England as they are revealed in plays, historical narratives and biographical accounts of the period. These texts yield fascinating insights into the various, often unpredictable ways in which people coped with the exigencies of credit, debt, mortgaging and capital ventures. Plays discussed include Shakespeare's *The Merchant of Venice* and *Timon of Athens*, Jonson's *The Alchemist* and Massinger's *A New Way to Pay Old Debts*. They are paired with writings by and about the finances of the corrupt Earl of Suffolk, the privateer Walter Raleigh, the royal agent Thomas Gresham, theatre entrepreneur James Burbage and the Lord Treasurer Lionel Cranfield. Leinwand's new readings of these texts reveal a blend of affect and cognition concerning finance that includes nostalgia, anger, contempt, embarrassment, tenacity, bravado and humility.

Identifying the English Edward Higgs, 2011-10-06 Personal identification is very much a live political issue in Britain and this book looks at why this is the case and why paradoxically the theft of identity has become ever more common as the means of identification have multiplied. *Identifying the English* looks not only at how criminals have been identified (branding, fingerprinting, DNA) but also at the identification of the individual with seals and signatures of the citizen by means of passports and ID cards and of the corpse. Beginning his history in the medieval period, Edward Higgs reveals how it was not the Industrial Revolution that brought the most radical changes in identification techniques, as many have assumed, but rather the changing nature of the State and commerce and their relationship with citizens and customers. In the twentieth century the very different historical techniques have converged on

the holding of information on databases and increasingly on biometrics and the multiplication of these external databases outside the control of individuals has continued to undermine personal identity security

French, 2004-11-23 This collection of essays is arranged around the central issue raised by a raft of new empirical research the relationship between social identity or the vision of the self and the ways in which this can explain historical agency If identities in early modern society were multiple complex and dependent on context rather than homogenous consistent or easily determined then it is difficult to make simple causal links to behaviour This collection aims to make innovative new research on the structures of English society available to the wider scholarly audience The essays use a number of detailed contextual case studies to explore the twin themes of the nature of identities in early modern society and their role in influencing historical agency They examine the variety of identities available to individuals in early modern England and the ways in which these were invoked and employed

The Single Woman in Medieval and Early Modern England Laurel Amtower, 2003 During the Middle Ages and Renaissance single women in England might occupy one or more categories in accordance with their life stages lifestyles and economic status Under the rubric of the single woman are found widows well born spinsters provided for by their families entrepreneurs wage earners many of whom were servants or farm workers nuns and the handicapped the latter also often sheltered by the church unwed mothers cross dressers some of whom may have been lesbians kept women and prostitutes This anthology mirrors the negotiations between the actual life circumstances of women and their ideological constructions on the page and stage These multivalent negotiations in some ways sustain in others contradict the received notion of an increasingly vehement patriarchy limiting opportunities for women's independence and offering few fictional models of women who found happiness outside marriage The contributions here are divided between those who discuss the stifling effects of misogyny and those who uncover not only significant pockets of resistance to inequality but also a sheer disregard of misogynous traditions on the part of English institutions as well as individuals This anthology will be of interest to graduate students and advanced scholars in English medieval and Renaissance studies including social history and economics the visual arts and especially literature
