Justice and Authority in Immigration Law Colin Grey,2015-04-23 This book provides a new and powerful account of the demands of justice on immigration law and policy Drawing principally on the work of Adam Smith Immanuel Kant and John Rawls it argues that justice requires states to give priority of admission to the most disadvantaged migrants and to grant some form of citizenship or non oppressive status to those migrants who become integrated It also argues that states must avoid policies of admission and exclusion that can only be implemented through unjust means It therefore refutes the common misconception that justice places no limits on the discretion of states to control immigration *RSA Journal* Royal Society of Arts (Great Britain),2003 *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2004 *Encyclopedia of Global Justice* Deen K.
