Practical Public Relations Anthony Fulginiti, Don Bagin, 2017-03-02. A word about our words. This is one textbook you may want to keep. Why? Because you will probably refer to it throughout your life to promote causes you believe in, whether you want to write an effective letter to the editor, gain support for a candidate for an office, or just build persuasive techniques to gain acceptance for an idea you want others to accept. Public relations is one area every student will practice forever. Whether it's moving up the corporate ladder or espousing ideas you want to see succeed, you will be able to tap into the knowledge that you've accumulated in this course and to revisit this text for ideas when you need them. Also, one of the most important activities you can engage in during your college years is getting involved in a preprofessional society such as the Public Relations Student Society of America. Your college or university might offer other communication, advertising, or marketing societies or clubs. Join one. Attend their meetings, especially those of the professional parent society. You will network with people and get involved in projects that will lead to internships and jobs. Thousands of students like you joined those societies and worked on worthwhile projects, attended national conferences, and became hugely successful after graduation. Some of those were students of ours who wrote some of the words in this text. You can make your world and the world that your children live in better by learning to champion causes you think will make a serious difference. We hope the ideas in this book will help you do that. If this book enlightens you, we are satisfied. If it motivates you, we are gratified. And if someday you recall a few of its words when you most need them, we will be edified that through you, we will still be teaching.
