 the contemporary United States Political philosophers immigration policy makers and others have tended to define the term  
 undocumented migrant legalistically that is in terms of lacking legal authorization to live and work in one s current country  
 of residence In *Socially Undocumented* Reed Sandoval challenges this legalistic understanding by arguing that being socially  
 undocumented is to possess a real visible and embodied social identity that does not always track one s legal status She  
 further argues that achieving immigration justice in the U S and elsewhere requires a philosophical understanding of the  
 racialized class based and gendered components of socially undocumented identity and oppression *Socially Undocumented*  
 offers a new vision of immigration justice by integrating a descriptive and phenomenological account of socially  
 undocumented identity with a normative and political account of how the oppression with which it is associated ought to be  
 dealt with as a matter of social justice It also addresses concrete ethical challenges such as the question of whether open
