Sir William Francis Butler

Red Morning:

A Blood Red Morning Mark Pryor,2024-08-13 In this unputdownable WWII series Paris detective Henri Lefort must solve a complex case when a man is murdered on the policeman s own doorstep January 1941 It s cold and still dark when Paris Detective Henri Lefort wakes up to an empty apartment irritated with his roommate for not even starting the coffee Irritation turns to suspicion when he starts his walk to work and spots a large blood stain in front of the building At the office his boss chief of homicide is incredulous that Henri didn t hear the gunshot that killed a man right outside his apartment On the plus side this means that Henri isn t a witness and can investigate the case It first appears that the dead man is a nobody but Henri soon finds out he s a nobody with a classified police file Henri confronts his bosses and then the Germans but is stonewalled So he turns his investigation to the other tenants in his building Coincidentally each resident claims ignorance When Henri learns that the dead man was a German agent he must face the real possibility that one of his friends and neighbors is a killer It s his job to find the truth no matter what but when he does he faces the biggest dilemma of his career whether in times like these the rules of justice should be just sometimes trumped by the rules of war *The Pennsylvania School Journal* Pennsylvania. Dept. of Public Instruction,1875 **Lean's Collectanea** Vincent Stuckey Lean,1902 *Vedic Hymns (Complete)* Anonymous,2020-09-28 I finished the Preface to the first volume of my translation of the Hymns to the Maruts with the following words The second volume which I am now preparing for Press will contain the remaining hymns addressed to the Maruts The notes will necessarily have to be reduced to smaller dimensions but they must always constitute the more important part in a translation or more truly in a deciphering of Vedic hymns This was written more than twenty years ago but though since that time Vedic scholarship has advanced with giant steps I still hold exactly the same opinion which I held then with regard to the principles that ought to be followed by the first translators of the Veda I hold that they ought to be decipherers and that they are bound to justify every word of their translation in exactly the same manner in which the decipherers of hieroglyphic or cuneiform inscriptions justify every step they take I therefore called my translation the first traduction raisonn e I took as an example which I tried to follow though well aware of my inability to reach its excellence the *Commentaire sur le Yasna* by my friend and teacher Eug ne Burnouf Burnouf considered a commentary of 940 pages quarto as by no means excessive for a thorough interpretation of the first chapter of the Zoroastrian Veda and only those unacquainted with the real difficulties of the Rig veda would venture to say that its ancient words and thoughts required a less painstaking elucidation than those of the Avesta In spite of all that has been said and written to the contrary and with every wish to learn from those who think that the difficulties of a translation of Vedic hymns have been unduly exaggerated by me I cannot in the least modify what I said twenty or rather forty years ago that a mere translation of the Veda however accurate intelligible poetical and even beautiful is of absolutely no value for the advancement of Vedic scholarship unless it is followed by pi ces justificatives that is unless the translator gives his reasons why he has translated

every word about which there can be any doubt in his own way and not in any other It is well known that Professor von Roth one of our most eminent Vedic scholars holds the very opposite opinion He declares that a metrical translation is the best commentary and that if he could ever think of a translation of the Rig veda he would throw the chief weight not on the notes but on the translation of the text A translation he writes must speak for itself As a rule it only requires a commentary where it is not directly convincing and where the translator does not feel secure Between opinions so diametrically opposed no compromise seems possible and yet I feel convinced that when we come to discuss any controverted passage Professor von Roth will have to adopt exactly the same principles of translation which I have followed
