Malraux Le Malentendu:

Malraux, le malentendu André Brincourt, 1986 *Art and Time* Derek Allan, 2014-09-18 A well known feature of great works of art is their power to live on long after the moment of their creation to remain vital and alive long after the culture in which they were born has passed into history This power to transcend time is common to works as various as the plays of Shakespeare the *Victory of Samothrace* and many works from early cultures such as Egypt and Buddhist India which we often encounter today in major art museums What is the nature of this power and how does it operate The Renaissance decided that works of art are timeless immortal immune from historical change and this idea has exerted a profound influence on Western thought But do we still believe it Does it match our experience of art today which includes so many works from the past that spent long periods in oblivion and have clearly not been immune from historical change This book examines the seemingly miraculous power of art to transcend time an issue widely neglected in contemporary aesthetics Tracing the history of the question from the Renaissance onwards and discussing thinkers as various as David Hume Hegel Marx Walter Benjamin Sartre and Theodor Adorno the book argues that art transcends time through a process of metamorphosis a thesis first developed by the French art theorist Andr Malraux The implications of this idea pose major challenges for traditional thinking about the nature of art **Art and the Human Adventure** Derek Allan, 2009 Derek Allan has published widely on aspects of Malraux s works and the theory of art and literature He holds a PhD in Philosophy and a Masters degree in French Language and Literature and is currently a Visiting Scholar in the School of Humanities at the Australian National University Book Jacket [French VII Bibliography](#) , 1986 *The Stranger* Raymond Gay-Crosier, 2002 Gale Study Guides to Great Literature is a unique reference line composed of three series Literary Masters Literary Masterpieces and Literary Topics Convenient comprehensive and targeted toward current coursework these guides place authors titles and topics into context for high school and college students as well as general researchers Each Literary Masters volume introduces a significant author covering basic biographical information The related Literary Masterpieces volume explores a major title from this author s works in detail Finally the Literary Topics volume places the author and work within a relevant literary movement or genre *Existential Fiction* Catharine Savage Brosman, 2000 Gale Study Guides to Great Literature is a unique reference line composed of three series Literary Masters Literary Masterpieces and Literary Topics Convenient comprehensive and targeted toward current coursework these guides place authors titles and topics into context for high school and college students as well as general researchers Each Literary Masters volume introduces a significant author covering basic biographical information The related Literary Masterpieces volume explores a major title from this author s works in detail Finally the Literary Topics volume places the author and work within a relevant literary movement or genre **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles** University of California (System).
