Lyonette, 2007-04-11 Social changes including an increase in dual earner families declining fertility and growing problems of work life balance are underway as more women particularly mothers enter and remain in paid employment The authors explore this in a number of European countries Britain France The Netherlands Finland Norway Sweden and Portugal Women's Work, Men's Work National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, 1986-02-01 Even though women have made substantial progress in a number of formerly male occupations sex segregation in the workplace remains a fact of life This volume probes pertinent questions Why has the overall degree of sex segregation remained stable in this century What informal barriers keep it in place How do socialization and educational practices affect career choices and hiring patterns How do family responsibilities affect women's work attitudes And how effective is legislation in lessening the gap between the sexes Amply supplemented with tables figures and insightful examination of trends and research this volume is a definitive source for what is known today about sex segregation on the job Man mortal: being a reply to Mr. F.
