Migrant Races:

Races and Immigrants in America John Rogers Commons, 1920 Immigration and Race Attitudes Emory Stephen Bogardus, 1928 The Immigrant Frederic Jennings Haskin, 1913 Cricket Country Prashant Kidambi, 2018-11-12 Cricket is an Indian game accidentally invented by the English it has famously been said Today the Indian cricket team is a powerful national symbol a unifying force in a country riven by conflicts But India was represented by a cricket team long before it became an independent nation Drawing on an unparalleled range of original archival sources Cricket Country is the story of the first All India cricket tour of Great Britain and Ireland It is also the extraordinary tale of how the idea of India took shape on the cricket field in the high noon of empire Conceived by an unlikely coalition of colonial and local elites it took twelve years and three failed attempts before an Indian cricket team made its debut on the playing fields of imperial Britain This historic tour which took place against the backdrop of revolutionary politics in the Edwardian era featured an improbable cast of characters The teams young captain was the newly enthroned ruler of a powerful Sikh state The other cricketers were chosen on the basis of their religious identity Remarkably for the day two of the players were Dalits Over the course of the blazing Coronation summer of 1911 these Indians participated in a collective enterprise that epitomizes the way in which sport and above all cricket helped fashion the imagined communities of both empire and nation *Races and Immigrants in America* John Rogers Commons, 1907 **Migration and Business Cycles** Harry Jerome, 1926 *Race and Immigration* Nazli Kibria, Cara Bowman, Megan O'Leary, 2013-11-18 Immigration has long shaped US society in fundamental ways With Latinos recently surpassing African Americans as the largest minority group in the US attention has been focused on the important implications of immigration for the character and role of race in US life including patterns of racial inequality and racial identity This insightful new book offers a fresh perspective on immigration and its part in shaping the racial landscape of the US today Moving away from one dimensional views of this relationship it emphasizes the dynamic and mutually formative interactions of race and immigration Drawing on a wide range of studies it explores key aspects of the immigrant experience such as the history of immigration laws the formation of immigrant occupational niches and developments of immigrant identity and community Specific topics covered include the perceived crisis of unauthorized immigration the growth of an immigrant rights movement the role of immigrant labor in the elder care industry the racial strategies of professional immigrants and the formation of pan ethnic Latino identities Written in an engaging and accessible style this book will be invaluable for advanced undergraduate and beginning graduate level courses in the sociology of immigration race and ethnicity *Immigrant Health and the Community* Michael Marks Davis, 1921 **World Migration and Labour** International Federation of Trade Unions, John William Brown, 1926 **Migrants and Race in the US** Philip Kretsedemas, 2013-10-23 This book explains how migrants can be viewed as racial others not just because they are nonwhite but because they are racially alien This way of seeing makes it possible to distinguish migrants from a set of racial categories

that are presumed to be indigenous to the nation In the US these indigenous racial categories are usually defined in terms of white and black Kretsedemas explores how this kind of racialization puts migrants in a quandary leading them to be simultaneously raced and situated outside of race Although the book focuses on the situation of migrants in the US it builds on theories of migrants and race that extend beyond the US and makes a point of criticizing nation centered explanations of race and racism These arguments point toward the emergence of a new field visibility that has transformed the racial meaning of nativity migration and migrant ethnicity It also situates these changing views of migrants in a broader historical perspective than prior theory explaining how they have been shaped by a changing relationship between race and territory that has been unfolding for several hundred years and which crystallizes in the late colonial era *The Survey* ,1910
