Mikhail Chigorin Efim Bogoljubov, Colin Leach, 1987 *Mikhail Chigorin* ,19?? **Bishop Vs. Knight** Steve Mayer, 1997 **101 Questions on How to Play Chess** Fred Wilson, 1994 A chess expert has distilled an enormous amount of information into an easy to follow question and answer format that not only explains the most basic rules and essentials of play but also offers advice on opening combinations middle and end game strategies notation castling and other topics Over 100 carefully chosen diagrams and illustrations **Max Euwe** Isaak Linder, Vladimir Linder, 2017-04-10 The Gentleman Champion The fifth book of the World Chess Champions series focuses on the life and career of the Dutchman Max Euwe This soft spoken professor of mathematics rocked the chess world in 1935 when he defeated the seemingly irresistible force Alexander Alekhine to become world champion Many chessplayers thought this was an upset of the first magnitude Hardly Euwe was at his prime and the best in the world at the time In fact Euwe posted a plus score against Alekhine in the four games they played between the 1935 and 1937 matches As noted by Andy Soltis in his foreword These pages are rich in detail and not just about Euwe There are extensive mini biographies of Alekhine Botvinnik Bogoljubow Spielmann Capablanca Paul Keres G za Mar czy Flohr Vera Menchik and R ti as well as less known players such as Edgard Colle Jan Hein Donner and Salo Landau The photos and drawings and those caricatures are also remarkable The venerable fifth world champion was also a first class arbiter author and chess diplomat As an author he is regarded as one of the two or three finest chess writers for the average player He was also president of the International Chess Federation FIDE at the time of the Fischer Spassky title match in 1972 Were it not for Euwe s persuasive patient handling of the difficult negotiations between the Russians and Americans it is very likely that the match would not have taken place at all Join Russian historians Isaak and Vladimir Linder as they take you on a journey exploring the life and games of the gentleman world champion Max Euwe **Chess Life** ,1991 **HCI in Games: Experience Design and Game Mechanics** Xiaowen Fang, 2021-07-03 This two volume set LNCS 12789 and 12790 constitutes the refereed proceedings of the Third International Conference on HCI in Games HCI Games 2021 held as part of the 23rd International Conference HCI International 2021 which took place in July 2021 Due to COVID 19 pandemic the conference was held virtually The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions The papers of HCI Games 2021 Part I are organized in topical sections named Experience Design in Games User Engagement and Game Impact Game Mechanics *Chess* ,1990 [Chess Rivals of the 19th Century](#) Tony Cullen, 2020-12-21 Many historical chess books focus on individual 19th century masters and tournaments yet little is written covering the full scope of competitive chess through the era This volume provides a comprehensive overview with more than a third of the 300 annotated games analyzed by past masters and checked by powerful engines Players such as Max Lange and Cochrane known to the chess public only by the name given to a fierce attack or gambit are brought to life Fifty masters are each given their own chapter with brief

biographies results and anecdotes and an endgame section for most chapters

Winning Chess Manoeuvres Sarhan Guliev,2015-11-04 When a chess master finds a winning strategic idea it is seldom by accident An amateur staring at a position on the chess board is often fumbling in the dark his head spinning with a multitude of general rules and vague notions The master s approach is concrete He knows how and where to look because he has studied the games of other masters Sarkhan Guliev presents a wide range of strategic manoeuvres that have been repeatedly employed by great chess players He shows how masters generate ideas from the games of other masters positional sacrifices amazing counterplay concepts unorthodox exchanges winning with h2 h4 overcoming a blockade the advantages of double pawns the e5 pawn wedge the uses of the queen bishop battery and much more After studying this book chess amateurs will find winning strategic manoeuvres quicker and more often They will not find them by accident or by relying on general principles but because they have built up a large stockpile of highly practical ideas

Lasker Zenón Franco,2019-01-07 Emanuel Lasker was world champion for a remarkable 27 years 1894 1921 and is generally regarded as having been way ahead of his time in his understanding of chess He primarily regarded chess as a fight and considered that the strongest move in a position was the one that created greatest problems for the opponent and not necessarily the one that was objectively best His strengths included His skill at accumulating small advantages with quiet manoeuvring His astonishing ability to find tactical resources in defence His uncanny knack of provoking errors in balanced positions Lasker was essentially a complete chessplayer and his games feel thoroughly modern Indeed many contemporary elite players the most obvious one being the current world champion Magnus Carlsen exhibit a very similar style The Move by Move series provides an ideal format for the keen chessplayer to improve their game While reading you are continually challenged to answer probing questions a method that greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of chess knowledge Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn This is an excellent way to study chess while providing the best possible chance to retain what has been learnt
